Re: Water Right Change Application No. CS4-30133C (CHEL-11-02)

The Department of Ecology received an e-mail on March 9, 2012 from the Chelan County Water Conservancy Board stating the applicant requested the above-referenced change application to be withdrawn.

This letter is to notify Thomas Reynolds and the Chelan County Water Conservancy Board that Change Application No. CS4-30133C (CHEL-11-02) has been withdrawn from Ecology's records.

Sincerely,

Sandy Anderson
Water Resources Program

Subject: CHEL 11-02(CS4-30133C) Prelim Signature Review

Chelan Board,

I finished the preliminary signature review for Change Application No. CS4-30133C (CHEL-11-02), Thomas Reynolds, and based on 1/10/2011 Chelan County parcel data, Ecology WRP signature guidance (GUID 2040), the application and other available information, no additional signatures appear to be needed for the existing or proposed places of use.

Existing place of use (no additional signatures needed):

PARCEL_NO	Owner_Name
282128635205	FOSTER EARL STANLEY

Proposed place of use (no additional signatures needed):

292128320155	REYNOLDS THOMAS & KARIN
--------------	-------------------------

I hope this helps in your review process, and please feel free to give me a call with any questions, follow-up or additional information.

Thanks,
Ingrid

WATER RIGHT CHANGE APPLICATION REVIEW

Application Number: S4-30133C

Applicant: Thomas Reynolds
745 Kings Court
Wenatchee, WA 98801

WRIA: 47

Water: Lake Chelan

This water and/or affected reaches downstream are inhabited by: kokanne, land locked chinook salmon, bull trout/Dolly Varden, rainbow trout, cutthroat trout, lake trout, burbot and other native and non-native game and non-game fishes.

Surface waters in potential hydraulic continuity with this well are inhabited by:

Based on: Site-specific observations WDFW database or GIS
 Literature Knowledge of this type of stream

Amount: 0.03 cfs gpm 1.50 acre-ft/yr
Point of diversion: S28, T28N & T29N, R21E WM

WDFW recommended conditions:

- Instream flows in WAC 173-5
- This water right should be subject to established lake levels, if any.

Instream flows based on: IFIM study USGS toe-width Tennant
 Other:

WDFW requests that water right be subject to the following instream flows or natural flow, whichever is less:
Instream flows to be measured at:

Department of Ecology

April 19, 2011

Page 2

Other conditions requested by WDFW indicated by :

HPA

Screen intake if accessible to fish (to be determined during application for HPA) according to WDFW standards.

Based upon review of fish resources present, type and amount of water use, condition of habitat, and amount of water available, WDFW REQUESTS DENIAL of this application, in accordance with RCW 77.57.020, IF THIS SPACE IS CHECKED.

WDFW recommends modification of this proposal to minimize impacts to fish.

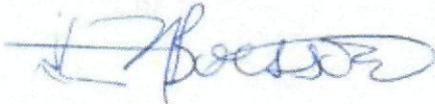

WDFW is a landowner and water user that will be affected by this proposed use.

Please HOLD this application pending field review. WDFW staff will provide detailed response by

Granting this water right application would adversely affect WDFW's existing water rights for a facility. We request the following conditions for this water right if it is granted.

Rationale for WDFW recommendations if not based on existing rules or statutes: WDFW does not object to adding a point of diversion. All other conditions in the water right certificate remain intact, including the instantaneous and annual quantities of water allowed to be diverted from Lake Chelan and the number of dwellings allowed to be served. An HPA and screening are required. More information can be obtained online at: <http://wdfw.wa.gov/licensing/hpa/>.
