 YES Claim 117629

6. Remarks and Other Relevant Information:

This change application is intended to provide authority that allows for the applicant to redevelop its canal into a pressurized pipeline. This pressurized pipeline would divert from the mouth of the Wenatchee River to serve the applicant's customers north of the Wenatchee River so that in the future no quantities will be diverted from the current Wenatchee River diversion pursuant to the subject right. This will allow the proposed instream portions of the right in the Wenatchee River to be permanently placed in the State Trust Program from the original diversion to the next downstream proposed diversion. Funding for this project is justified substantially by the expected benefits to Wenatchee River instream flows. The other proposed points of withdrawal and diversion are intended to be in hydraulic continuity with the Rock Island pool on the Columbia River. The points of diversion and withdrawal serve two purposes: (a) as alternative sources for Pioneer's customers south of the Wenatchee River that are not served from the proposed pressurized pipeline, and (b) to authorize multiple sources of supply for the Regional Water System to deliver water through Regional's delivery system within the service area approved by the Department of Health. It is expected that this authorization will bring defacto changes to the subject right into compliance. To the extent that the project creates water savings beyond the Wenatchee those portions are proposed to be placed temporarily in the State Trust Program. Pioneer and the Regional Water System are negotiating an agreement that would transfer a significant portion of the water right to the Regional water system to be withdrawn and diverted from present and future sources along the Columbia River. In this event, the place of use in Section 5(B) will be modified to include the present and future service area for the Regional Water System approved by the Department of Health.

Certain applications may incur a Real Estate Excise Tax liability for the seller of the water rights. The Department of Revenue has requested notification of potential taxable water right related actions and therefore may be provided with a copy of this request.

Please contact the State Department of Revenue for further information. The phone number is (360) 570-3265. The address is: Department of Revenue, Real Estate Excise Tax, PO Box 47477, Olympia, WA 98504-7477.
