Dear Mr. Rosbach:

The purpose of this letter is to acknowledge your recent donation to the Washington State Trust Water Right Program. The Department of Ecology, pursuant to RCW 90.42.080(1)(b), acknowledges the donation to the Trust Water Right Program, the water rights confirmed under Court Claim No. 00467 as described below.

RCW 90.42.080 provides that the total of any portion of the water right remaining with the donor plus the donated portion of the water right may not exceed the extent to which the water right was exercised during the five years before the donation. The donated water right's status as a trust water right is not evidence of the validity or quantity of the right. While the right is in the Trust Water Right Program, it is protected against relinquishment and when the period of trust ends, the water right will revert back to the water right holder or land owner in the full quantity and for the original purposes.

The trust water rights listed above expire on the last day of the trust water right calendar year. If you would like to extend any of these temporary transfers, please write our office 30 days prior to the expiration of the trust water right.

EXPLANATION OF WATER USAGE

In 2002 water right for this acreage was 540 acre/feet per year at an instantaneous flow of 6.5 cfs and it was used to the maximum in both the instantaneous and total acre-feet amount.

Irrigation Efficiencies Agreement No. 03-28-02 changed the water right. The water right for this property is 374.7-acre/feet/ yr. for irrigation at an instantaneous flow of 5.458 cfs. However, we are going to use our full water right this year and have no plans for relinquishment. 50 acre/feet will be pumped as per the appropriation. 124.7 acre/feet is being put in the water trust program for multiple years. The other 200 acre/feet is being placed in the water trust program for one year. Application to move this water to an adjacent field will be filed this year.
