That part of the project is completed. You can toss the application.

Mike

Subject: Short-term water use application S4-35394T

Hello Mr. Rickel,

In looking over some applications for short-term use of water, I see that the intent for Application S4-35394T was for June through September of 2010. Mike Sandidge was listed as the applicant and contact person on the application, however it appears he no longer works for the Cascadia Conservation District. I am hoping you can help answer my question. This application proposes to use water from the lower Entiat River to establish native vegetation as part of a habitat enhancement project. Can you tell me if the water use part of the project has been completed or is there still a need for processing this application?

Attached is a pdf of the application.

Thank you,

Tom

Subject: S4-35394 on Entiat River

Teresa,

This application was applied for this past summer by the Cascadia Conservation District for the purpose of watering recently planted riparian plants. WDFW, the land owner, is in favor of this project. The water is only needed for a few years until the plants are established.

I wanted to correct the units of measurement in WRTS. It should be 45 GPM, not 45 CFS. Thank you,

Terra Hegy

Re: Water Right Application No. S4-35394

Dear Mr. Sandidge:

We have received your application for a water right and have assigned it the number shown above. Please use this number in future communications with our office.

Please note that construction of your water system and water use should begin only after you have received written authorization from Ecology.

If you have any questions, please contact Teresa Mitchell at 509-575-2597.

Sincerely,

Mark C. Schuppe
