RE: Mitigation Plan for Water Right Change Application CS4-00258CTCL.

I am submitting the "Manastash Creek Restoration Project In-Stream Flow Enhancement Implementation Plan" to the Washington Department of Ecology as an amendment to my water right change application. The mitigation is for the upstream move of the point of diversion for Yakima Adjudication Court Claim # 00258 and any adverse environmental impacts that may be identified under the State Environmental Policy Act.

By submitting the Manastash Creek Restoration Project Instream Flow Enhancement Implementation Plan as my voluntary mitigation, I understand that my application or applications for POD change for the consolidation of Anderson, Reed Ditch, and Hatfield Ditch, upstream to the MWDA diversion, will commit not to divert water from the consolidated diversion until 6 cfs (before pro-rationing) of adjudicated water rights for instream flow purposes has been obtained and put into trust in perpetuity, in addition to any water saved by the consolidation of Reed, Anderson and Hatfield to the MWDA site.

Sincerely,

Louis E. Tasker 5/29/08

Lou Tasker
