Are there any ADDITIONAL WATER rights OR CLAIMS RELATED to the same property as the ONE PROPOSED FOR CHANGE/TRANSFER?

6. Remarks and Other Relevant Information:

Well 1: 450 feet north and 25 feet east from the south quarter corner of Section 27, T. 39 N., R. 31 E.W.M.

Well 2: 1990 feet south and 2500 feet east from the northwest corner of Section 34, T. 39 N., R. 31 E.W.M.

The proposed changes add purpose of use and extent season of use, but do not increase consumptive use nor does it affect existing instream flow mitigation requirements. Crown’s goal is to minimize truck traffic by located multiple sources with diverse authorizations to co-locate supply and demand to the greatest extent possible. This change also provides source redundancy in the event other sources are temporarily out of service.

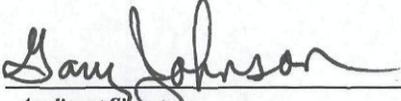

Crown owns some of the proposed property, leases some, has mining claims on some, and is securing signatures on the balance. Crown will not access or use water on property unless it fits in one of the above categories. Crown will provide a complete accounting of property access authority before the Board and Ecology acts on the ROE.

IF FOR SEASONAL OR TEMPORARY, START DATE Upon Ecology Approval END DATE 12/31/2028
