RE: Application No. S4-35149 – Temporary Authorization for a diversion for the use of mining

Dear Mr. Geck:

On August 8, 2007, Don Geck of Selah, Washington, filed a temporary application to divert 1500 gallons of water a year for mining purposes.

This application seeks approval for a temporary, non-consumptive use for three mining claims located in Section 31, T. 21 N., R. 18 E.W.M. Buckets will be used to carry water a short distance from an unnamed stream in the Williams Creek drainage to be used in panning tubs. Water from the panning tubs will drain to the ground.

It is anticipated that the proposed small intermittent non-consumptive diversion will not impair existing water rights during 2008, provided the use conforms to the following.

This Temporary Authorization has the following parameters and provisions:

1. The priority date is August 8, 2007.
2. Diversion may take place from July 24, 2008 through October 31, 2008.
3. The diversion will be from a small unnamed stream, tributary to Williams Creek in the NW¼, Section 31, T. 21 N., R. 18 E.W.M.
4. The water will be used non-consumptively for panning operations and returned back to the system approximately at the same location and the same quality as it was originally diverted.
5. Diversion shall not exceed 1500 gallons a year.
6. The operator of the system under this Temporary Authorization shall:
 - have a copy of this Temporary Authorization,
 - be aware of the parameters and provisions and operate accordingly,

FILE COPY

- provide said copy as evidence of this Temporary Authorization upon request by Department of Ecology or Department of Fish and Wildlife staff,
 - a sign bearing the Permit No. S4-35149 shall be displayed near the site.
7. Precautions shall be taken to prevent the dipping of fish. One option may be choosing a screen box large enough so a bucket could dip water from inside it. Screening criteria are described in the Gold and Fish pamphlet (see enclosure).
 8. This authorization shall in no way excuse the permittee from compliance with any applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.
 9. The water sources and/or water transmission facilities, and place of use (land application site) may not be located entirely upon the land owned by the applicant. Therefore, the applicant is advised that issuance of a permit by this Department for appropriation and disposal of the waters in question does not convey a right of access to, or other right to use, land which the applicant does not legally possess.

You have a right to appeal this order. To appeal this you must:

- File your appeal with the Pollution Control Hearing Board within 30 days of the "date of receipt" of this document. Filing means actual receipt by the Board during regular office hours.
- Serve your appeal on the Department of Ecology within 30 days of the "date of receipt" of this document. Service may be accomplished by any of the procedures identified in WAC 371-08-305(10). "Date of receipt" is defined at RCW 43.21B.001(2).
