Ms. Blakeney,
2001

December 31,

I was reviewing our documentation on our Bailey Rd. Well. Our log just gives actual digits read.

The meter actually measures Acre-Feet in 1/10000 AF. I apologize for the inconvenience. Please destroy the old documentation and replace it with this new document.

Sincerely,

Rob Lynch

RE: Application No(s). G4-32968

Earlier this year, the Department of Ecology issued an Emergency Drought Authorization under the above-referenced application number for the use of emergency wells in the Yakima River basins to supplement reduced deliveries during this irrigation season. In some cases new wells were approved for this purpose.

One of the provisions of the authorizations was that a flow meter must be installed, water use monitored, and the water use records submitted to the department at the end of the irrigation season. At this time, I am writing to request the metering reports on these wells. If you did not drill a well that was authorized, or did not use water that was authorized, please let us know.

My staff will be conducting end of irrigation season field visits in the near future. Your meter records and information on the completion of new wells is greatly appreciated.

If you have questions, please call Suzanne Blakeney at (509) 454-7294.

Sincerely,

Phil Crane, Unit Supervisor
