TOTAL PRIMARY SUPPLY				3,500[8]	4,705[9]

1. These rights assumed a 1970 population of 5,000 people and limited the annual withdrawal from all rights to 4,340 acre-feet, including standby wells. A Department of Ecology decision deducted the standby well volumes, reducing the total rights to 3,500 acre-feet.
2. This right assumed a 1985 population of 6,000 people and issued for use during the period from May 1 to October 31 each year. Any water withdrawal by the City in excess of 3,456 acre-feet from any municipal water source was to be deducted from the annual volume authorized by this right.
3. Authorized the withdrawal of 500 GPM, 278 acre-feet per year from the East Omak Park Well, for the following purposes:
   a. Irrigation of 90 acres from April 1 to October 1 (allocated 270 acre-feet per year with 180 acre-feet being supplemental to withdrawals under Certificate No. 6530).
   b. Municipal supply from April 1 to October 1 (allocated 8 acre-feet with 5 acre-feet being supplemental to withdrawals under Certificate No. 6530).
4. Application No. G4-29859, filed December 1, 1988, proposed to withdraw an additional 1,000 GPM from the Okoma Well for the purpose of municipal supply within the City. The application is pending evaluation for permit.
5. This permit was issued in July 1994, establishing continuous municipal supply to the City as shown, including water used by Omak Wood Products. The permit did not add to the existing 3,500 acre-feet annual rights.
6. Valid for the entire year.
7. Valid for the period May 1 to October 31.
8. Total municipal supply rights
9. Includes 500 GPM standby right for Kenwood Well, but not OWP right.
