SITE ADDRESS  
No specific address for these irrigated acres.  
Generally, the place of use is high up on  
Paterson Ridge, northeast of Paterson, WA.

**Quantity Authorized for Diversion and Instream Flow**

DIVERSION RATE	UNITS	ANNUAL QUANTITY (AF/YR)
0.31	CFS	60

Due to the distance involved in this seasonal change proposal, the right will be seasonally conveyed into the trust water right program (TWRP) as instream flow. The place of use of the right conveyed into the TWRP extends from the original point of diversion on the Okanogan River to the proposed point of diversion on the Columbia River. This conveyance, if exercised, would allow Ecology to protect the water right quantities along this distance from potential withdrawal by other users and ensure that the water right quantities are available at the proposed point of diversion.

**Purpose**

PURPOSE	DIVERSION RATE		UNITS	ANNUAL QUANTITY (AF/YR)		PERIOD OF USE (mm/dd)
	ADDITIVE	NON-ADDITIVE		ADDITIVE	NON-ADDITIVE	
Irrigation	0.31		cfs	60		03/01 - 11/30
Instream Flow (trust water)	see above			60		see above

**REMARKS**

This change is seasonal for the 2013 and 2014 irrigation seasons only.

### LEGAL DESCRIPTION OF AUTHORIZED PLACE OF USE

**Irrigation:** Within NW¼ Section 34 and north 3000 feet of the E½ Section 33 BOTH in T. 6 N., R. 26 E.W.M.

**Instream Flow:** Extends downstream from the originally authorized point of diversion on the Okanogan River located within the SE¼NW¼ of Section 20, T. 37 N., R. 27 E.W.M. to the above proposed point of diversion on the Columbia River, as discussed above.

## Proposed Works

Irrigation system is already in place and operable. Meter dedicated to measuring water use under this authorization is to be installed and operable prior to any water use. This is a two-year seasonal change for the 2013 and 2014 irrigation seasons only.

## Development Schedule

BEGIN PROJECT	COMPLETE PROJECT	PUT WATER TO FULL USE
N/A	Completed	In Full Use

## Measurement of Water Use

How often must water use be measured?	Weekly
How often must water use data be reported to Ecology?	Annually (Jan 31)
What volume should be reported?	Total Annual Volume in acre-feet
What rate should be reported?	Annual Peak Rate of Diversion (cfs)

## Provisions

### Measurements, Monitoring, Metering and Reporting

An approved measuring device must be installed and maintained prior to any water use under this authorization that is dedicated to measuring water use under this authorization only. The measuring device shall be installed and maintained in accordance with the rule "Requirements for Measuring and Reporting Water Use", Chapter 173-173 WAC, which describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Recorded water use data from the dedicated measuring device shall be submitted via the Internet. To set up an Internet reporting account, contact the Central Regional Office. If you do not have Internet access, you can still submit hard copies by contacting the Central Regional Office for forms to submit your water use data.

### Department of Fish and Wildlife Requirement(s)

The intake(s) shall be screened in accordance with Department of Fish and Wildlife screening criteria (pursuant to RCW 77.57.010, RCW 77.57.070, and RCW 77.57.040). Contact the Department of Fish and Wildlife, 600 Capitol Way N, Olympia, WA 98501-1091. Attention: Habitat Program, Phone: (360) 902-2534 if you have questions about screening criteria. <http://wdfw.wa.gov/about/contact/>.

No dam or weir may be constructed in connection with this diversion.

**Quantity Limits, Flow and Regulation**

This change does not authorize an enlargement of those quantities in cubic feet per second or acre-feet per year as described under S4-SWC9974(A).

When the March 1 forecast at the Dalles Dam is less than 60 million ac-ft, the expanded period of use is subject to instream flows on the Columbia River measured at John Day Dam as such: for the periods from March 1 to March 31 and from October 1 to November 30, pursuant to Chapter 173-563 WAC.

The original place of use of Surface Water Certificate S4-SWC9974(A) and the place of use under Change Authorization CS4-SWC9974(A) shall be followed for the duration of the 2013 and 2014 irrigation seasons. Irrigation occurring during the 2013 and 2014 irrigation seasons within the places of use of S4-SWC9974(A) or CS4-SWC9974(A) shall constitute a violation of the terms of this authorization, and will result in its immediate termination. Other enforcement actions, including but not limited to fines and/or penalties, may also follow as a result of a violation.

**Water Use Efficiency**

The water right holder is required to maintain efficient water delivery systems and use of up-to-date water conservation practices consistent with RCW 90.03.005.

**Schedule and Inspections**

This seasonal change shall expire at the end of the 2014 irrigation season, being November 30, 2014, at which time the place of use shall automatically revert back to that described under S4-SWC9974(A) and/or CS4-SWC9974(A).

In accordance with RCW 90.42.080(9), the full quantity of water conveyed into the trust water rights program shall revert to Lake Wallula Vineyards, LLC, on November 30, 2014.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

**General Conditions**

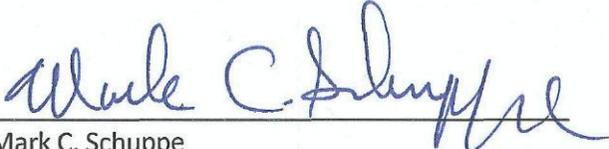

The applicant is advised that the issuance of this seasonal change by Ecology does not convey a right of access to, or other right to use land, which you do not legally possess. Obtainment of such a right is a private matter between the applicant and the owner of the land.

Nothing in this authorization shall be construed as satisfying other applicable federal, state, or local statutes, ordinances or regulations.

Ecology assumes no liability for the purchase and/or construction of any permanent facilities in conjunction with this seasonal change authorization. Applicants for seasonal change should not construe that a seasonal change will result in the granting of a permanent change of water right.

**Authorization**
