LEGAL DESCRIPTION OF AUTHORIZED PLACE OF USE

Lot SP 26-89-1: That portion of the SE¼SW¼ of section 22, township 37 north, range 38 east, W.M., in Stevens County, Washington, described as follows: Commencing at the Columbia River Reservoir Boundary Marker No. 9 which is a 1" steel pin, as shown on print sheet No. 1827, Columbia River Reservoir, Grand Coulee Dam; thence S. 07°43'17" E. for 56.63 feet, more or less, to the west line of the Burlington Northern Railroad right of way; thence south along the west line of said right of way to a point 525 feet north of, as measure along the Burlington Northern Railroad right of way, the south line of the SE¼SW¼ of said section 22; thence N. 82°17' W. to the Columbia River Reservoir Boundary; thence N. 7°43' E. to the true point of beginning.

Provisions

Water Service Contract

Use of water under this permit or certificate is contingent upon the applicant's compliance with a water service contract with Ecology for recovery of costs associated with the Lake Roosevelt Incremental Release Project. Failure to comply with the terms of the water service contract will result in cancellation of the permit or revocation of the certificate.

Measurements, Monitoring, Metering and Reporting

An approved measuring device must be installed and maintained for each of the sources identified by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173," which describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements. Water use data shall be recorded monthly and submitted annually by January 31st each year.

Recorded water use data may be submitted via the Internet. To set up an Internet reporting account, contact the Central Regional Office. If you do not have Internet access, you can still submit hard copies by contacting the Central Regional Office for forms to submit your water use data.

Water Use Efficiency

The water right holder is required to maintain efficient water delivery systems and use of up-to-date water conservation practices consistent with RCW 90.03.005.

Schedule and Inspections

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

General

The water source and/or water transmission facilities are not wholly located upon land owned by the applicant. Issuance of a water right permit by this Department does not convey a right of access to, or

other right to use, land which the applicant does not legally possess. Obtaining such a right is a private matter between applicant and owner of that land.

The right to use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, except as provided in RCW 90.03.380, 90.03.390, and 90.44.100.

This certificate of water right is specifically subject to relinquishment for non-use of water as provided in Chapter 90.14 RCW.

Given under my hand and the seal of this office at Spokane, Washington, this 9th day of September, 2014.

Maia Bellon, Director
Department of Ecology
