& PENDING APPLICATION

SECTION MAP

Sec. 14 Twp. 25 N. R. 44

Scale: 1 inch = 800 feet (each small square = 10 acres)

Show by a cross (X) the location of point of diversion (surface water source) or point of withdrawal (ground water source). For ground water applications, show by a circle (O) the locations of other wells or works within a quarter of a mile. Indicate traveling directions from nearest town in space below.

Detach here

Fold along scale

Detach this scale at the performance, fold excess paper under or cut off excess by cutting along the scale line. This scale corresponds to the SECTION MAP above. You can read feet directly from this scale to outline property and locate points of diversion or withdrawal on the SECTION MAP. Enclose this map along with the application and \$10.00 examination fee.

See Attachment
"C"

INSERT MAP

Your water right application will be processed by the Regional Office of the Department of Ecology having jurisdiction in the area in which your water works are located. Please submit your completed application form, maps, sketches, and \$10.00 examination fee to the appropriate Regional Office.

The appropriate Regional Office will be happy to answer any further questions you may have.

Ecology is an Equal Opportunity and Affirmative Action employer. For special accommodation needs please contact the appropriate Regional Office from above.

Attachment "A"

Request to change following information regarding:

Permit No. 710-D

1. Change permit to reflect current use as shown on Attachment "B".
2. Change permit to include all wells and integrate the entire system.
3. Change permit to reflect future service, peak pumping and annual water usage.
4. Change location to reflect abandonment of old wells and drilling of two new wells (Well No. 21 and 22) located as shown on the map.
5. Change permit to indicate status as a well field with 4 additional wells (Well No.s 23, 24, 25, 26) to be drilled in the future on this site.

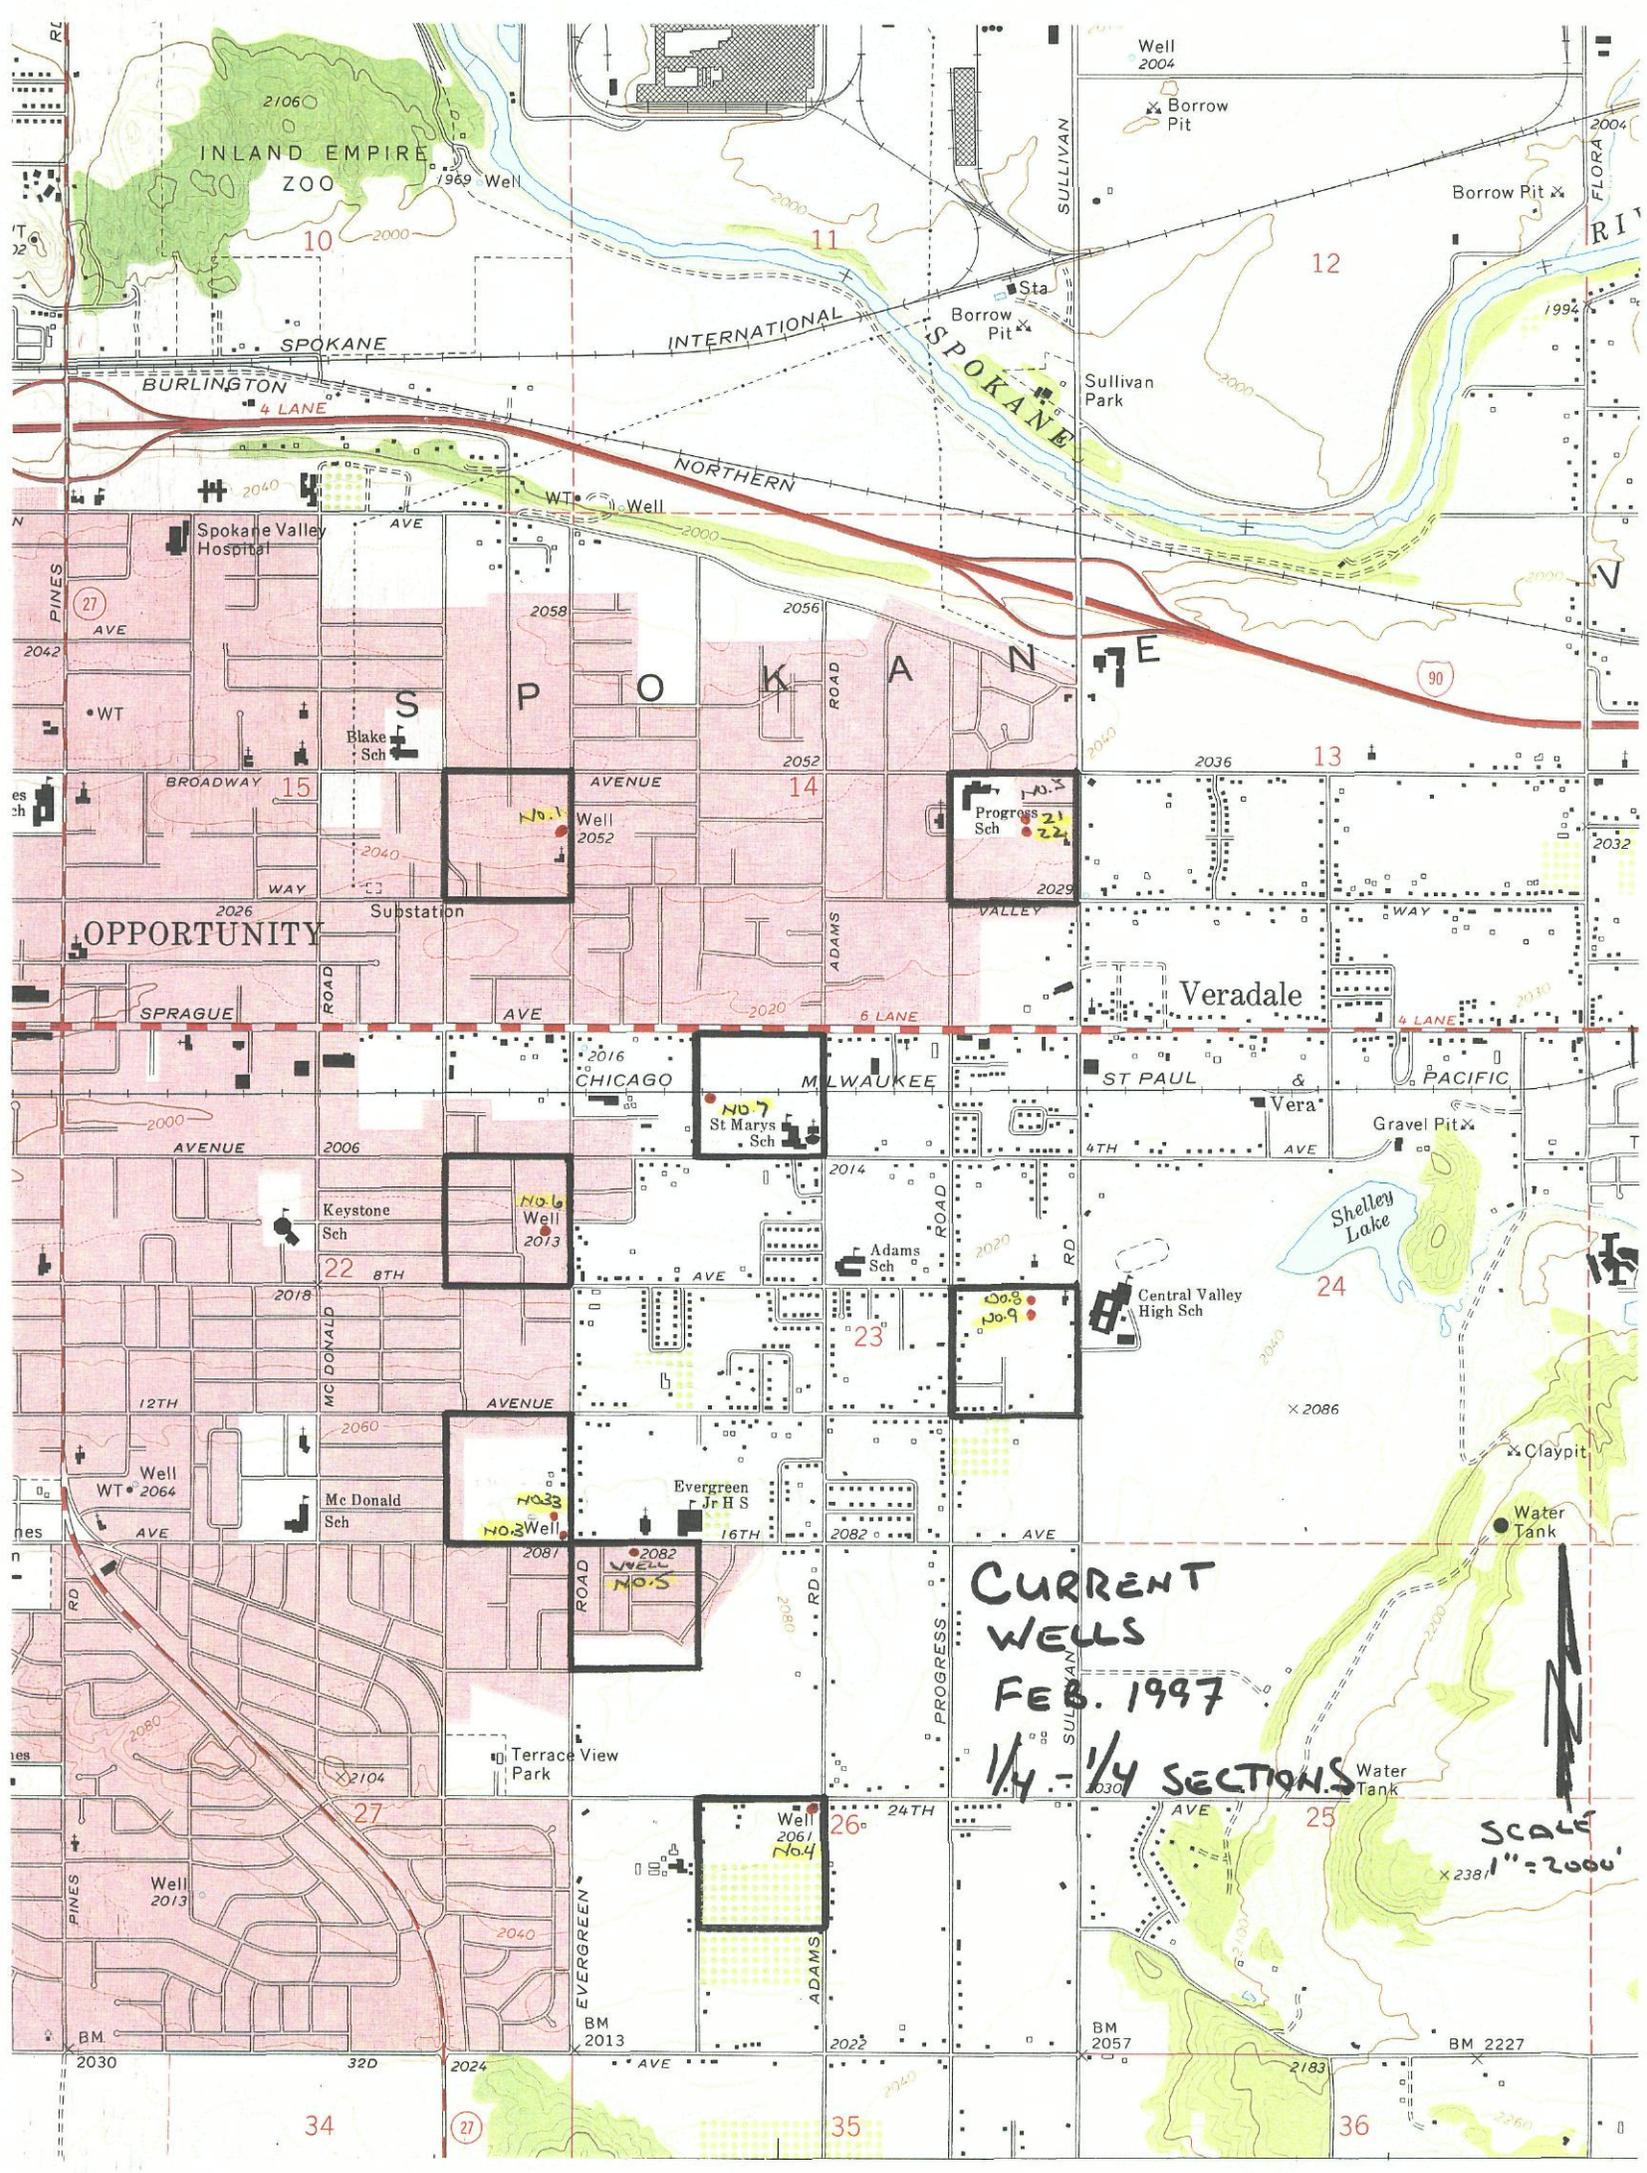

Attachment "D"

Request to change following information regarding:

Permit No. 710-D

1. Change permit to reflect future peak pumping of 42,000 GPM.
2. Change permit to reflect total withdrawal of 14,000 acre feet per year.

This information will be updated as soon as this section of the long range plan is completed.
