Re: Surface Water Permit No. S3-30664

Dear Mr. Verbrugge:

Enclosed is your permit to be retained for your records. Please read the enclosed information sheet, as well as your entire permit.

It is important to remember that this permit is not a *final* water right; it is permission to develop a water right.

Our information indicates you have begun construction of your project. We are enclosing a *Construction Notice* form. Once you finish construction, submit the completed form to this office. **If you cannot complete your project by August 1, 2014, you must contact this office to apply for an extension.**

If you have any questions, please contact Kevin Brown at 509-329-3422.

Sincerely,

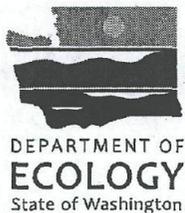

Karen Tusa
Water Resources Program
Eastern Regional Office

Place of Use (See Attached Map)

A cabin in the E½SE¼NW¼ of Section 17, T. 30 N., R. 45 E.W.M.

Proposed Works

Small dam, intake, 4 inch pipe diverting to a small micro-hydro plant and returned to the creek

PERMIT

Development Schedule

BEGIN PROJECT	COMPLETE PROJECT	PUT WATER TO FULL USE
Begun	August 1, 2014	August 1, 2015

Measurement of Water Use

How often must water use be measured?	Bi-Monthly
How often must water use data be reported to Ecology?	Upon Request by Ecology
What volume should be reported?	None
What rate should be reported?	Annual Peak Rate of Withdrawal (gpm or cfs)

Provisions

Measurements, Monitoring, Metering and Reporting

An approved measuring device shall be installed and maintained for each of the sources identified by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

The diversion is limited to 0.20 cfs or half the flow of the creek, whichever is less.

Proof of Appropriation

The water right holder shall file the notice of Proof of Appropriation of water (under which the certificate of water right is issued) when the permanent distribution system has been constructed and the quantity of water required by the project has been put to full beneficial use. The certificate will reflect the extent of the project perfected within the limitations of the permit. Elements of a proof inspection may include, as appropriate, the source(s), system instantaneous capacity, beneficial use(s), annual quantity, place of use, and satisfaction of provisions.

Schedule and Inspections

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

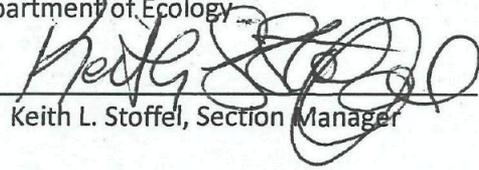

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Dated this 20th day of November, 2012, at Spokane, Washington,
