

STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY

PERMIT
TO APPROPRIATE PUBLIC WATERS OF THE STATE OF WASHINGTON

PRIORITY DATE September 11, 2008	PERMIT NUMBER S3-30602
--	----------------------------------

MAILING ADDRESS Phumee Elleseg 181 Cusick Creek Road Cusick, Washington 99119	SITE ADDRESS (IF DIFFERENT)
---	------------------------------------

Quantity Authorized for Withdrawal or Diversion		
DIVERSION RATE	UNITS	ANNUAL QUANTITY (AF/YR)
0.54	CFS	1.35

Purpose						
PURPOSE	DIVERSION RATE			ANNUAL QUANTITY (AF/YR)		PERIOD OF USE (mm/dd)
	ADDITIVE	NON-ADDITIVE	UNITS	ADDITIVE	NON-ADDITIVE	
Irrigation	0.04		CFS	1.35		4/1 - 10/31
Pond use	0.5		CFS	0		1/1 - 12/31

0.04 cubic feet per second, from April 1 to October 31, for the irrigation of ½ acre of lawn and garden; and 0.5 cubic feet per second, continuously, for non consumptive pond use

Source Location							
COUNTY	WATERBODY	TRIBUTARY TO			WATER RESOURCE INVENTORY AREA		
Pend Oreille	Cusick Creek	Pend Oreille River			62-Pend Oreille		
SOURCE FACILITY/DEVICE	PARCEL	TWP	RNG	SEC	QQ Q	LATITUDE	LONGITUDE
Cusick Creek Diversion	433413529004	34 N.	43 E.	13	NW¼SW¼	48.4440°	117.3257°
Datum: NAD83/WGS84							

Place of Use
PARCELS (NOT LISTED FOR SERVICE AREAS) 433413529004
LEGAL DESCRIPTION OF AUTHORIZED PLACE OF USE Lot 4 Seven Devils West First Addition, according to plat recorded in the office of the Pend Oreille County Auditor, Pend Oreille County, Washington

Proposed Works
Non-consumptive diversion to fill a pond and pump station from pond for irrigation of lawn/garden

Development Schedule

BEGIN PROJECT	COMPLETE PROJECT	PUT WATER TO FULL USE
May 1, 2013	May 1, 2015	May 1, 2016

Measurement of Water Use

How often must water use be measured?	Every two weeks
How often must water use data be reported to Ecology?	Upon Request by Ecology
What volume should be reported?	Total Annual Volume
What rate should be reported?	Annual Peak Rate of Withdrawal (gpm or cfs)

Provisions

Pond Requirements

The pond/excavations (small impoundment) associated with use of water under this authorization shall be lined in accordance with RCW 90.03.370(8), for the purpose of minimizing the loss of water through seepage.

The pond is allowed one filling or charging of the system each year, subject to existing right. Water diversion beyond the first filling requires that inflow equals outflow, less water diverted for irrigation. The outflow water from the pond shall be returned at the same point it was diverted with no bypass reach. Additionally, the water returned must meet water quality standards.

Measurements, Monitoring, Metering and Reporting

An approved measuring device shall be installed and maintained for each of the sources identified by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Department of Fish and Wildlife Requirement(s)

The intake(s) must be screened in accordance with Department of Fish and Wildlife screening criteria (pursuant to RCW 77.57.010, RCW 77.57.070, and RCW 77.57.040). Contact the Department of Fish and Wildlife, 600 Capitol Way N, Olympia, WA 98501-1091. Attention: Habitat Program, Phone: (360) 902-2534 if you have questions about screening criteria. <http://wdfw.wa.gov/about/contact/>

No dam shall be constructed in connection with this diversion.

Water Use Efficiency

The water right holder is required to maintain efficient water delivery systems and use of up-to-date water conservation practices consistent with RCW 90.03.005.

Proof of Appropriation

The water right holder shall file the notice of Proof of Appropriation of water (under which the certificate of water right is issued) when the permanent distribution system has been constructed and the quantity of water required by the project has been put to full beneficial use. The certificate will reflect the extent of the project perfected within the limitations of the permit. Elements of a proof inspection may include, as appropriate, the source(s), system instantaneous capacity, beneficial use(s), annual quantity, place of use, and satisfaction of provisions.

Schedule and Inspections

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

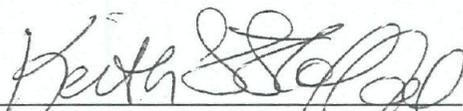

Pend Oreille River Low Flow

All irrigation shall cease when the flow of the Pend Oreille River falls below 7700 cubic feet per second at U.S. Geological Survey (U.S.G.S.) gage #12395500, Pend Oreille River at Newport, located within Section 24, Township 56 N., Range 6 W.B.M.

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Dated this 24th day of April, 2013, at Spokane, Washington,

Department of Ecology

by 
Keith L. Stoffel, Section Manager

Re: Surface Water Permit No. S3-30602

Dear Phumee Elleseg:

Enclosed is your permit to be retained for your records. Please read the enclosed information sheet, as well as your entire permit.

This permit authorizes you to construct your project and put water to use.

We are enclosing a *Construction Notice* form. Once you begin construction, complete and submit the form to this office. **If you cannot begin your project by May 1 2013, you must contact this office to apply for an extension.**

If you have any questions, please contact Gene Drury at 509-329-3566.

Sincerely,

Karen Tusa
Water Resources Program
Eastern Regional Office
