Re: Water Right Permit No.: **G2-30183**

Dear Mr. Harrington:

In response to your request, you are hereby granted an extension to complete construction on your water right for the reason below:

- Additional time needed for development of connections due to local development patterns and economic conditions.
- Good faith, due diligence, and good cause has been shown.

Your new deadline to complete construction and send a Completion of Construction form is **October 1, 2012**

You have a right to appeal this decision. To appeal this you must:

- File your appeal with the Pollution Control Hearings Board within 30 days of the “date of receipt” of this document. Filing means actual receipt by the Board during regular office hours.
- Serve your appeal on the Department of Ecology within 30 days of the “date of receipt” of this document. Service may be accomplished by any of the procedures identified in WAC 371-08-305(10). “Date of receipt” is defined at RCW 43.21B.001(2).

Be sure to do the following:

- Include a copy of this document that you are appealing with your *Notice of Appeal*.
- Serve and file your appeal in paper form; electronic copies are not accepted.

1. To file your appeal with the Pollution Control Hearings Board

Mail appeal to:

The Pollution Control Hearings Board
PO Box 40903
Olympia WA 98504-0903

OR Deliver your appeal in person to:

The Pollution Control Hearings Board
4224 – 6th Ave SE Rowe Six, Bldg 2
Lacey WA 98503

2. To serve your appeal on the Department of Ecology

Mail appeal to:

The Department of Ecology
Appeals Coordinator
P.O. Box 47608
Olympia WA 98504-7608

OR Deliver your appeal in person to:

The Department of Ecology
Appeals Coordinator

RE: Extension for Construction Completion
Water Right – G2-30183

We are submitting this extension request to allow this water right construction schedule to more accurately reflect the data included in our most recent water system plan.

EFFORT MADE: This water right requires an extension beyond the most recent construction completion date of October 1, 2007 presently shown on our permit. We just acquired this water right in January of 2007 and have been working on completion since then. Development within our retail and future service areas is being diligently pursued but is not yet complete. We are in contact and working with five land owners who currently have ownership of the approved building lots. We have transferred this water right earlier this year. In our current WSP submittal we describe future growth in terms of 10 years to final build out.

REASONS FOR EXTENSION: The service area, which can be reasonably served by this system at full build-out by 2018 is 45 ERU's (At present we have 28 active ERU's). Based on present knowledge and forecasts, we expect to reach our current maximum of 45 ERU's by October 1, 2018. We are also pursuing consolidation and interties between existing neighboring systems which we also own through our water system planning process.

Also due to the present state of the economy, residential financing and regulations, earlier construction/expansion timelines must be extended.

SCHEDULE FOR COMPLETION: We propose to complete and document the full use of our water right by not later than October 1, 2018. The absorption or build-out for the services and homes should be completed within the proposed ten year timeframe.

Please call or email me at SteveH@thewaterco.net if you have any questions. Thank you.

Re: Water Right Permit No. **G2-30183 – OVERDUE NOTICE**

Dear Mr. Harrington:

On May 13, 2008, we sent a letter requesting a \$50 retroactive extension fee before we could accept the Construction Notice that was submitted on May 2, 2008.

As your Proof of Appropriation is due by **October 1, 2008** we gave you the option of requesting an extension which would bring your permit back into good standing and the \$50 retroactive fee would not be necessary. We have not received a response. If we do not receive the \$50 fee and/or an extension request within **60 days** from the date of this letter, **your permit will be cancelled.**

Extension requests must contain the following:

- A description of efforts you have made to complete the project.
- The reason you need an extension, with details and reasons why the development schedule should be extended. You may also provide any other information or materials that support your request.
- A new schedule you propose for completing the project.
- A **non-refundable extension request fee of \$50.**

If we do not receive the information within **60 days** from the date of this letter, **your water right permit will be cancelled.** If you have any questions, please contact me at (360) 407-0274 or clat461@ecy.wa.gov.

Re: Water Right Permit No. **G2-30183 – OVERDUE NOTICE**

Dear Mr. Harrington:

On May 2, 2008, we received a Construction Notice reporting you have completed construction of your water system. However, project completion was due by **October 1, 2007**, and we cannot accept completion of construction at this time without a \$50 retroactive extension fee.

Please note that Proof of Appropriation is due by **October 1, 2008**. If this deadline cannot be met, you must contact us in writing to request an extension. **Requesting an extension will bring your permit back into good standing, and the \$50 retroactive fee will not be necessary.**

Extension requests must contain the following:

- A description of efforts you have made to complete the project.
- The reason you need an extension, with details and reasons why the development schedule should be extended. You may also provide any other information or materials that support your request.
- A new schedule you propose for completing the project.
- A **non-refundable extension request fee of \$50.**

If we do not receive the information within **30 days** from the date of this letter, **your water right permit may be cancelled**. If you have any questions, please contact me at (360) 407-6116, or at anie461@ecy.wa.gov.

Dear Ms. Klocke:

I received the Department of Health's December 27, 2007, approval letter and accompanying documents regarding the Stevenson Water Department water system. I reviewed the documents and revised current and forecasted water right status tables. The revisions satisfy the concerns raised in Ecology's May 15, 2007, comment letter.

Thank you for the opportunity to review this water system plan. Please contact me at (360) 407-0290 if you have questions regarding my review or need additional information.
