DEPT. OF ECOLOGY
CASHIERING SECTION

Dear Water User:

Attached is the copy of the claim you requested. We have checked (✓) the appropriate box below which may be important to your claim and to your right to the use of the water.

- The form which this claim was filed on is called a "short form", this form was meant for uses under 5000 gallons of water per day being used for:
- Livestock watering;
 - Single or group domestic water supply;
 - Industrial purposes; and/or
 - Irrigation of no more than 1/2 acre of lawn or noncommercial garden.

If the historic use of water is more than what is described above and you can qualify, you may want to file a claim prior to June 30, 1998. Please call 1-800-468-0261 for a claim packet.

- The priority date claimed on the attached water right claim form does not appear consistent with the intent of the previous claim statute. The legislative intent with the establishment of Chapter 90.14 RCW was to record existing vested water uses, those prior to existence of the water code:
- Prior to June 7, 1945 for beneficial use of ground water;
 - Prior to June 7, 1917 for beneficial use of surface water;
 - And, through a court ruling, lands that are riparian (abuts) to the natural water course which was taken out of federal ownership prior to June 7, 1917 and water was put to beneficial use prior to 1932.

Consequently, if your use does not precede the dates listed above, a court may determine that your claim is not valid. You may want to research the history of water use on your property (this would be when water was first put to beneficial use by anyone). If you are unable to prove that the beneficial use of water was prior to the water code, you need to contact the nearest ecology office listed on the back of this sheet and apply for a permit to use the water.
