Janet Kessell

Hi Janet,

I'm the person who is now coordinating all of the water right application cost reimbursement projects at Ecology's SW Regional Office. I have a file on my desk that has you as a contact for Larry Schorno, and Jeff Marti suggested I contact you regarding this project.

The Phase 1 report and cost estimate was submitted to Ecology in January of this year. Because of the number of competing applications, the cost was estimated to be a minimum of \$170,000, assuming no appeals, workable mitigation proposals, etc. The contract has long expired and our Fiscal Unit is asking whether we can close out this contract. Not having heard back from you or Mr. Schorno, I will assume this to be the case, but I wanted to send an email just to make sure.

If you have any questions about this, reply to my email or you can call me at (360) 407-0238.

Thanks

Dear Mr. Schorno:

Re: Ground Water Application No. G 2-29020

We acknowledge receipt of your affidavit of publication of notice in connection with the above-numbered application.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.
