Dear Mr. Wade:

Re: Water Right Application G2-28687

The Department of Ecology is currently evaluating your application for a water right permit. In reviewing your application, I find I need some additional information to help with our decision. Please take a few minutes and respond the following questions:

- 1) How many acres will you be irrigating per season?
- 2) How many acres are you currently irrigating?
- 3) What kind of crop(s) do you plan to irrigate?
- 4) What type of irrigation system will you be using?
- 5) Is your well currently metered? If not, how do you calculate your water usage?

Thanks for your attention to this matter. Please respond in writing so I can include this information in your file. Be sure to reference your water right application number in your response.

Sincerely,

Jill Van Hulle

Dear Mr. Wade:

Re: Ground Water Application No. G 2-28687

We acknowledge receipt of your affidavits of publication of notice in connection with the above-numbered applications.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

Sheri Fox
