Re: Water Right Application No. G2-28666

Hello,

I'm writing to ask for your help on a project. A number of people from Sequim and Port Angeles who helped develop the Elwha-Dungeness Watershed Plan are working on accomplishing the goals of the plan. As part of this, we need to estimate future water demand for the Dungeness watershed. A piece of this estimate will be based on the applications for water rights currently on file with the Department of Ecology.

You are receiving this letter with the return envelope and form because you have an application pending with Ecology for water from the Dungeness area.

Because a number of things may have changed since you filed your application, we'd like to hear from you. Plans may be different, property may have been sold, or you might have acquired water through other means.

Is your application still accurate? Your answer will help us more realistically estimate the amount of water that's being requested.

**Action required on the enclosed form:**

Please indicate if you still need water for your project.

If yes, your application will remain on file with Ecology. **OR**

If you do not need the water, please check that box and I can pass the information to staff in Ecology's Water Resources Program. **AND**

If you no longer own the property, please provide contact information for the new owner.

**PLEASE NOTE**

**Ecology is not taking action on pending applications for water rights at this time.**

**Action will be taken after a Dungeness instream flow and water management rule has been adopted and enough information is available to make decisions.**

The Dungeness rule is currently being discussed, and formal review of a draft rule is planned for late this summer. A public workshop is being held at the John Wayne marina in Sequim, from 4 to 7 p.m. on March 26<sup>th</sup>. We'll be talking about elements of the rule and options for water management. There will also be an announcement in the Sequim Gazette.

**Ecology contact information**

If you have questions about this request or are interested in the discussions on water supply and rule development, you can contact me at the Shorelands and Environmental Assistance Program, Southwest Regional Office of Ecology. My phone number is (360) 407-0276.

You can also call Sarah Ferguson of the Water Resources Program, who is working on the Dungeness rule, at (360) 407-6780.

Information on Dungeness rulemaking is on-line at:  
<http://www.ecy.wa.gov/programs/wr/instream-flows/dungeness/html>.

General information regarding watershed planning is available on Ecology's website at:  
<http://www.ecy.wa.gov/watershed/index.html>.

Thank you for your time and attention.

Dear Sir or Madame:

Re: Ground Water Application No. G 2-28666

We acknowledge receipt of your affidavit of publication of notice in connection with the above-numbered application.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

Sheri Fox  
Water Resources

### AFFIDAVIT OF PUBLICATION

State of Washington  
County of Clallam

Jim Manders, being first duly sworn in oath, deposes and says: that he is the Editor of **THE SEQUIM GAZETTE**, a weekly newspaper. That said newspaper is a legal newspaper, by order of the Superior Court in the county in which it is published and it is now and has been for more than six months prior to the date of the publications hereinafter referred to, published in the English language continually as a weekly newspaper in Clallam County, Washington. That the annexed is a true copy of

NOTICE OF APPLICATION TO APPROPRIATE  
PUBLIC WATERS

Devcon Industries

as it was published in regular issues (and not in supplement form) of said newspaper once a week for a period of 2 consecutive weeks, commencing on the 9 day of December 1992, and ending on the 16 day of December 1992, both dates inclusive, and that such newspaper was regularly distributed to its subscribers during all of said period. That the full amount of the fee charged for the foregoing publication is the sum of 40.94, which amount **has been paid in full.**

Jim Manders

Subscribed and sworn to before me on this 4 day of January 1993.

Sue Ellen Riesau

Notary in and for the State of Washington, residing at Sequim.

My commission expires February 28, 1994.

NOTICE OF APPLICATION TO  
APPROPRIATE PUBLIC WATERS  
TAKE NOTICE:  
That Devcon Industries of Sequim, Washington on November 10, 1992 under Application No. G2-28666 filed for permit to appropriate public waters, subject to existing rights, from a well in the amount of 31 gallons per minute as needed year round each year, for multiple domestic supply. The source of the proposed appropriation is located within NW1/4 NW1/4 of Section 16, Township 30 N., Range 4W W.M., in Clallam County.  
Protests or objections to approval of this application must include a detailed statement of the basis for objections; protests must be accompanied by a two dollar (\$2.00) recording fee and filed with the Department of Ecology, at the address shown below, within thirty (30) days from 12/16/92.

Devcon Industries Ltd.  
PO Box 1682  
Sequim, Washington 98382-1682

Dear Sir or Madame:

Re: Ground Water Application No. G 2-28666

Your application for the appropriation of water has been assigned the above-referenced number. Please refer to this number in future correspondence.

Enclosed is a notice of your application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in the County or Counties in which the storage, diversion, and use is to be made and in other newspapers as directed. A list of these newspapers in your county is enclosed. The applicant is responsible for the payment of the publication. Please read the notice carefully to make sure it is correct. Should you find an error, please return the notice to our office for correction.

You should mail or deliver the enclosed notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication with the news clipping from the newspaper, please forward the original to this office promptly.

Since your application is for service of more than one residence, it is considered a public water supply. Public water supply systems are required to be approved by either the local health department or the Department of Social and Health Services (DSHS), depending upon system size. If you have not already done so, I suggest that you contact your local Health Department or Department of Social and Health Services, Water Supply and Waste Section, Olympia, Washington, for further information.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

Sheri Fox  
Water Resources
