Pat Wiles
Stroh Water Company
3408 Hunt Street
Gig Harbor, WA 98335-2038

Dear Ms. Wiles:

Re: Stroh Water's Pending Application No.'s G2-28125, G2-28376 & G2-28430

Thanks for speaking with me last week regarding Stroh Water's three pending water right applications. As we discussed, I would like to begin reviewing these applications, but have questions regarding what your company is requesting.

Here's a brief summary of which application are pending, and my questions:

- On December 5, 1991 Stroh Water submitted application G2-28376 from a well. The well was described as being constructed with a 6-inch casing and drilled to a depth of 318 feet. (This well is located in the same location as Well 5, and it has been Ecology's understanding that this application was filed for additional water from Well 5 – except that Well 5 should have an 8-inch casing, and the application states that the well was constructed in 1959.) A withdrawal rate of 150 gpm was requested for supply of 1,000 connections. So, I need to know - 1) is this application for Well 5, or some different well, 2) If it is for Well 5 does Stroh Water intend to increase the withdrawal rate from Well 5 from 300 to 450 gpm?, 3) What does the well currently produce and have pump tests been conducted to support the increased withdrawal?
- On March 11, 1992 Stroh Water submitted application G2-28430 for what also appears to be Well 5, (same location as above and described as being an 8-inch casing drilled to 300 feet deep). This application requests 300 gpm, for supply of 600 homes. Again, is this another application for Well 5, and what is the intent?
- Application G2-28125 was filed on April 29, 1991 for a proposed Well 8. Ecology issued a preliminary permit, including an extension, so that Stroh could drill and test the production well. If this well was constructed, Stroh needs to submit an aquifer test and well log as detailed in the preliminary permit.

To continue processing these applications I will need to get the following:

- An explanation of which pending applications are intended for which wells, and what the proposal to appropriate more water actually is.
- A copy of your most recent Water System Plan that includes updated Demand Forecasting figures that demonstrate projected future water needs, a service area map and production data from the last few years – ideally total quantities of water pumped from each well.

November 23, 1998
Page 2

Also, in reviewing your water rights, I noticed that certificate G2-23344 was originally issued to Harbor Water Company, and if this well is interconnected with the rest of your system you should file an *Application for Change* to change legal service area.

I would be happy to meet with you to sort out these questions, feel free to call me at (360) 407-0274 if you have any questions, or to set up a time for us to meet.

Sincerely,

Jill Walsh

AMENDED

NOTICE OF APPLICATION TO APPROPRIATE PUBLIC WATERS

TAKE NOTICE:

That Stroh Water Company
of Gig Harbor, Washington on March 11, 1992 under
Application No. G2-28430 filed for permit to appropriate public waters, subject to existing rights,
from a well
in the amount of 300 gallons per minute as needed year round
each year, for multiple domestic supply

The source of the proposed appropriation is located within NE 1/4 SE 1/4
of Section 18, Township 21 N., Range 2E W.M., in Pierce County.

Protests or objections to approval of this application must include a detailed statement of the basis for objections; protests must be accompanied by a two dollar (\$2.00) recording fee and filed with the Department of Ecology, at the address shown below, within thirty (30) days from

(Last date of publication to be entered above by publisher)

* Notice must be published once a week for two consecutive weeks.

Dear Sir or Madame:

Re: Ground Water Application No. G 2-28430

Your amended application for the appropriation of water has been assigned the above referenced number. Please refer to this number in future correspondence.

Enclosed is a notice of your amended application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in the County or Counties in which the storage, diversion, and use is to be made and in other newspapers as directed. A list of these newspapers in your county is enclosed. The applicant is responsible for the payment of the publication. Please read the notice carefully to make sure it is correct. Should you find an error, please return the notice to our office for correction.

You should mail or deliver the enclosed notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication with the news clipping from the newspaper, please forward the original to this office promptly. Further processing of the application will not be made until the affidavit is returned.

Since your amended application is for service of more than one residence, it is considered a public water supply. Public water supply systems are required to be approved by either the Local Health Department or the State Department of Health, depending upon system size. If you have not already done so, I suggest that you contact your Local Health Department or DOH, Drinking Water Section, Olympia, Washington, for further information.

Sincerely,

Sheri Fox

Re: Ground Water Application No. G 2-28430

Dear Sir or Madame:

On March 26, 1992, this office sent a notice to you for publication in a newspaper within Pierce County.

We have not received the necessary Affidavit of Publication and, therefore, cannot continue to process your application.

Please reply within thirty (30) days or, if you are no longer interested in the application or obtaining a water right, please sign the statement below and return to this office.

I am no longer interested in processing the Ground Water Application No. G 2-28430 or obtaining a water right and I hereby agree to it being cancelled.

I understand that after the effective date of cancellation, any withdrawal of ground water exceeding 5000 gallons a day and irrigation of more than one-half acre is a violation in accordance with Chapters 90.03 and 90.44 RCW and is subject to enforcement action.

Re: Ground Water Application No. G 2-28430

Dear Sir or Madame :

We acknowledge receipt of your affidavit of publication of notice in connection with the above-numbered application.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

Sheri Fox
Water Resources
