LEGAL DESCRIPTION OF PROPERTY ON WHICH WATER IS TO BE USED

That part of the W1/2 SW1/4 of Section 34, T. 16 N., R. 2 E.W.M., lying Southerly of a line described as follows: Beginning at a point on the East line of said W1/2 SW1/4 343 feet South 2°25' West from the Northeast corner of said subdivision; thence North 87°35' West to the East line of tract conveyed to Dorothy A. Fielder by deed recorded under Auditor's File #801938; thence South along the Easterly line of said tract to the Southeast corner thereof; running thence North 76°33' West to the West line of said W1/2 SW1/4 and terminus of said line. EXCEPT the North 325 feet of the East 134 feet and EXCEPT the South 1000 feet of the West 522.72 feet.

DESCRIPTION OF PROPOSED WORKS

A 6 inch diameter drilled well having a depth of 342 feet below land surface. The well is equipped with a 3hp submersible pump.

DEVELOPMENT SCHEDULE

BEGIN PROJECT BY THIS DATE: Started	COMPLETE PROJECT BY THIS DATE: December 31, 2010	WATER PUT TO FULL USE BY THIS DATE: December 31, 2012
--	---	--

PROVISIONS

A well log of the completed well shall be submitted by the driller to the Department of Ecology within thirty (30) days of completion of this well. This well log shall be complete and all information concerning the static water level in the completed well, in addition to any pump test data, shall be submitted as it is obtained.

Installation and maintenance of an access port as described in WAC 173-160-291(3) is required.

In addition to the required access port, the applicant shall install and maintain, in operating condition, an airline and pressure gage. The pressure gage shall be equipped with a standard tire valve and placed in a location accessible to Department of Ecology personnel. The airline shall extend from land surface to the top of the pump bowls and the total airline length shall be reported to the Department of Ecology upon completion of the pump system.

An approved measuring device shall be installed and maintained for each of the sources authorized by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173.
<http://www.ecy.wa.gov/programs/wr/measuring/measuringhome.html>

Water use data shall be recorded annually and maintained by the property owner for a minimum of five years, and shall be promptly submitted to the Department of Ecology upon request.

Reported water use data shall be submitted via the Internet or by using the enclosed forms. To set up an Internet reporting account, access <https://fortress.wa.gov/ecy/wrx/wrx/Meteringx/>. If you have questions or need additional forms, contact the Southwest Regional office.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements. Installation, operation and maintenance requirements are enclosed as a document titled "Water Measurement Device Installation and Operation Requirements".
<http://www.ecy.wa.gov/programs/wr/measuring/measuringhome.html>

Prior to any new construction or alterations of a public water supply system, the State Board of Health rules require public water supply owners to obtain written approval from the Office of Drinking Water of the Washington State Department of Health. Please contact the Office of Drinking Water at Southwest Drinking Water Operations, 243 Israel Road S.E., PO Box 47823, Tumwater, WA 98504-7823, (360) 236-3030, prior to beginning (or modifying) your project.

The water right holder shall file the notice of Proof of Appropriation of water (under which the certificate of water right is issued) when the permanent distribution system has been constructed and the quantity of water required by the project has been put to full beneficial use. The certificate will reflect the extent of the project perfected within the limitations of the superseding permit. Elements of a proof inspection may include, as appropriate, the source(s), system instantaneous capacity, beneficial use(s), annual quantity, place of use, and satisfaction of provisions.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at Olympia, Washington,

this 6th day of March, 2009.

OK a

Department of Ecology
