RECORDED PLATTED PROPERTY

LOT	BLOCK	OF (GIVE NAME OF PLAT OR ADDITION)
-----	-------	------------------------------------

LEGAL DESCRIPTION OF PROPERTY ON WHICH WATER IS TO BE USED

Area served by Forest Hills Water Company.

S

2

DESCRIPTION OF PROPOSED WORKS

A 6 inch diameter drilled well, 117 feet deep. A water well log is on file.

DEVELOPMENT SCHEDULE

BEGIN PROJECT BY THIS DATE: Started	COMPLETE PROJECT BY THIS DATE: October 1, 1990	WATER PUT TO FULL USE BY THIS DATE: October 1, 1991
----------------------------------------	---------------------------------------------------	--------------------------------------------------------

PROVISIONS

Installation and maintenance of an access port as described in Ground Water Bulletin No. 1 is required. An air line and gauge may be installed in addition to the access port.

Permittee is advised that notice of proof of appropriation of water (under which final certificates of water right issue) should not be filed until the permanent diversion facilities have been installed together with a mainline system capable of delivering the recommended quantity of water to an existing or proposed distribution system within the area to be served.

In accordance with WAC 173-160-205 wells should not be located within certain minimum distances of potential sources of contamination. These minimum distances shall comply with local health regulations as appropriate. In general, wells shall be located at least 100 feet from a sewer, septic tank privy, or other source of contamination. Wells shall not be located within 1,000 feet of a solid waste landfill.

The Water Resources Act of 1971 specifies certain criteria regarding utilization and management of the waters of the State in the best public interest. Issuance of this permit was based on sufficient waters available, at least during portions of the year. However, it is pointed out to the permittee that his use of the water may be subject to regulation at certain times, based on the necessity to maintain water quantities sufficient for preservation of the natural environment.

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at Olympia, Washington, this 25th day of August, 1989

Christine O. Gregoire, Director
Department of Ecology
