DESCRIPTION OF PROPOSED WORKS

8" X 100' well

DEVELOPMENT SCHEDULE

BEGIN PROJECT BY THIS DATE: February 1, 1998	COMPLETE PROJECT BY THIS DATE: February 1, 1999 <i>2001</i>	WATER PUT TO FULL USE BY THIS DATE: February 1, 2000 <i>2002</i>
	<i>2003 2005 2007</i>	<i>2004 2006</i>
PROVISIONS		
	<i>2008</i>	<i>2009</i>

Installation and maintenance of an access port as described in WAC 173-160-355 is required.

"The permittee is advised that notice of Proof of Appropriation of water (under which the final certificate of water right is issued) should not be filed until the permanent distribution system has been constructed and that quantity of water allocated by the permit has been put to full beneficial use."

In order to maintain a sustainable supply of water, pumping must be managed so that static water levels do not progressively decline from year to year. Water levels shall be measured and recorded monthly, using a consistent methodology. The length of the pumping period or recovery period prior to each measurement shall be constant, and shall be included in the record. Data shall be submitted annually, in the month of February, to the Department of Ecology.

"Water use shall be limited to single-domestic supply (in-house use only), and non-consumptive aquaculture. Outside irrigation is not authorized."

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at Olympia, Washington,

this 10th day of July, 19 97.
