WATER RIGHT PERMIT

**Proposed Works**

1,250 square feet of rooftop rainwater catchment surface leading to eight 1,550-gallon storage tanks and a ½ horsepower pump conveying water uphill to an additional 1,550-gallon tank for gravity feed to home.

**Development Schedule**

BEGIN PROJECT	COMPLETE PROJECT	PUT WATER TO FULL USE
Started	Completed	In Full Use

**Measurement of Water Use**

How often must water use be measured?                      Measurements are not required.

**Provisions**

The annual quantity on this permit is not intended to limit the amount of rainwater collected and used by the water right holder for this project. Additional quantities may be developed subject to compliance with all federal, state and local requirements.

**Proof of Appropriation**

The water right holder shall file the notice of Proof of Appropriation of water (under which the certificate of water right is issued) when the permanent distribution system has been constructed and the quantity of water required by the project has been put to full beneficial use.

**Schedule and Inspections**

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

**This Permit Subject to Cancellation**

This permit is subject to cancellation if the permit holder fails to comply with the above development schedule and/or to give notice to the Department of Ecology on forms provided by the Department documenting such compliance.

Given under my hand and the seal of this office at Olympia, Washington this 16<sup>th</sup> day of October 2012.
