LEGAL DESCRIPTION OF AUTHORIZED PLACE OF USE Lot 126, Plat of Lake Cushman No. 9 as recorded in Volume 7 of Plats pages 84 through 87, records of Mason County, Washington

Proposed Works

Cushman No. 2 Dam impounds Lake Kokanee, a 128-acre lake with a gross storage capacity of 8,000 acre-feet at full pool (Elevation 480 feet Tacoma Datum). Pumps will be installed near the dam to pump water from Lake Kokanee to a head-tank structure with holding capacity of approximately 0.35 acre-feet. From the head-tank, water will be delivered via an underground pipeline to the North Fork Skokomish Fish Restoration Facility, a fish supplementation facility to be constructed on the southeast side of Lake Kokanee. After the water has passed through the fish supplementation facility, it will be discharged to the base of Cushman No. 2 Dam adjacent to the low-level outlet via an underwater pipeline.

Development Schedule

BEGIN PROJECT	COMPLETE PROJECT	PUT WATER TO FULL USE
May 1, 2013	December 31, 2014	May 1, 2018

Measurement of Water Use

How often must water use be measured?	Weekly
How often must water use data be reported to Ecology?	Annually (Jan 31)
What volume should be reported?	Total Annual Volume (AFY)
What rate should be reported?	Peak Rate of Withdrawal (CFS)

Provisions

Measurements, Monitoring, Metering and Reporting

An approved measuring device must be installed and maintained for each of the sources identified by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173., which describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Recorded water use data shall be submitted via the Internet. To set up an Internet reporting account, contact the Southwest Regional Office. If you do not have Internet access, you can still submit hard copies by contacting the Southwest Regional Office for forms to submit your water use data.

Department of Fish and Wildlife Requirement(s)

The intake(s) shall be screened in accordance with Department of Fish and Wildlife screening criteria (pursuant to RCW 77.57.010, RCW 77.57.070, and RCW 77.57.040). Contact the Department of Fish and Wildlife, 600 Capitol Way N, Olympia, WA 98501-1091. Attention: Habitat Program, Phone: (360) 902-2534 if you have questions about screening criteria. <http://wdfw.wa.gov/about/contact/>

Proof of Appropriation

The water right holder shall file the notice of Proof of Appropriation of water (under which the certificate of water right is issued) when the permanent distribution system has been constructed and the quantity of water required by the project has been put to full beneficial use. The certificate will reflect the extent of the project perfected within the limitations of the permit. Elements of a proof

inspection may include, as appropriate, the source(s), system instantaneous capacity, beneficial use(s), annual quantity, place of use, and satisfaction of provisions.

Schedule and Inspections

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

This Permit Subject to Cancellation

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or to give notice to the Department of Ecology on forms provided by the Department documenting such compliance.

Given under my hand and the seal of this office at Olympia, Washington this 19th day of November 2012.

Department of Ecology

OK PC
