Re: Water Right No. CG1-158498CL@166

Dear Mr. Hirshfield:

Thank you for submitting your *Construction Notice* reporting you have begun and completed construction of your water system.

Enclosed is a *Proof of Appropriation of Water* form to report when you have put the water to full beneficial use. According to your change authorization, you were to put the water to use and submit the form by **September 30, 2016**. The form should reflect actual water use, not to exceed the limits of your permit. You must submit the form for less water than authorized if the project is complete and less water is being used than anticipated.

If there are delays in putting the water to full beneficial use, you must contact us in writing to request an extension. Refer to the enclosed focus sheet for more information.

When sending in your *Proof of Appropriation of Water* form, or your extension request, be sure to include all of the data you have been recording as required by your change authorization. The provisions requiring recording of data have been highlighted on the enclosed copy of your change authorization.

If you have any questions, please contact me by email at arlene.harris@ecy.wa.gov or by phone at 425-649-7020.

Sincerely,

Arlene Harris
Water Resources Program
