Mr. Smith:

Please accept the enclosed application for a drought seasonal change in place of use for water right document number **CG1-126873-CL**. The water right was previously held in the Trust Water Right Program, and is owned by King County Water and Land Resources Division (WLRD).

The proposed place of use is owned by David Andrews and Claire Foster, currently farmed by seven farmers as part of the Experience Farming Project. They wish to lease five acre-feet at an instantaneous quantity of 50 gallons per minute over seven acres using drip irrigation, withdrawn from the Snoqualmie River.

WLRD has agreed to lease the water right to the Snoqualmie Valley Preservation Alliance, with the intention of sub-leasing to Experience Farming Project and potentially other farmers who might be experiencing hardship and crop loss due to the current drought conditions. It is possible that we will be submitting additional applications this season for other places of use from this same water right to address the needs of additional farmers. If necessary, we will impose restrictions on watering days to address instantaneous quantity limitations to maximize number of farmers who can gain access to irrigation water from this water right.

Enclosed please find the completed drought change application, the original claim associated with the Tall Chief property, the 2013 letter of acceptance from Ecology into the Trust program, a location map of the properties involved, and a map of the proposed place of use.

Please let me know if you have any questions regarding this seasonal change application.

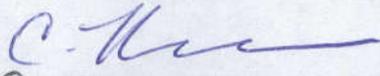

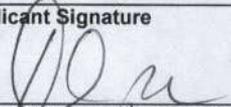

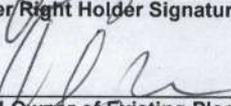

Sincerely,
