Re: Ground Water Permit No. G4-35465P

Dear Mr. and Mrs. Carey:

In response to your request, you are hereby granted an extension to begin construction (BC) for the reason below:

- A good-faith effort through building plans and a septic design has been shown.

The new deadline to submit your *Construction Notice* is **December 31, 2014**.

Please be advised that Ecology considers extension requests only where due diligence can be shown. Construction of diversionary and conveyance works are indications that the project is being pursued with diligence. Requests for extensions at the BC stage where no progress has occurred on the Permit is more closely scrutinized since the absence of any financial commitment or advancement towards development of the project can be considered speculation or lack of serious intent.
