Re: Ground Water Permit No. G3-29364

Dear Mr. Lodmell:

In response to your request, you are hereby granted an extension to complete construction for the reason(s) below:

According to your request, your project has been more costly and time consuming than first anticipated. You request additional time to convert the remaining 62 acres of authorized land under the permit to irrigated farmland and to construct two additional wells. It appears you have made substantial gains in completing your project. Your request is for a reasonable and short period of time. We will grant you an additional three years to complete your project.

The new deadline to submit your *Construction Notice* is **February 1, 2014**.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.
