Re: Water Right No. S2-29330 and S2-29407

Dear Mr. and Mrs. Villm:

In response to your request, you are hereby granted an extension to complete construction for the reason below:

- Construction was delayed due to site challenges and design changes needed for final approval of septic permits.

The new deadline to complete construction and submit your *Construction Notice* is **May 1, 2015**.

Due to numerous extensions already approved under these permits, you will need to show substantial progress by May 1, 2015. Please note that you may file your notice of completion of construction when the water systems have been completed, including the installation of a pump and meter. If you are unable to complete construction by that date, you will need to submit documentation of your efforts and progress made in order to be eligible for an additional extension.
