Re: Application for Change under Walla Walla River Adjudicated Certificate No. 836(A)

Dear Mr. & Mrs. Lane:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason(s) below:

According to your request, you will require two additional years to complete your project and put the water to full use. This includes replacing the non-functioning water meters and installing the remainder of the irrigation system. This delay has been caused by financial constrains. It appears you have made goals in completing your project and putting water to use. Your request is for a reasonable and short period of time. We will grant you an additional two years to complete your project.

The new deadline to submit your *Proof of Appropriation of Water* is May 1, 2013.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.
