Re: Ground Water Permit No. G4-26162(A)P

Dear Mr. Badissy:

In response to your request, you are hereby granted an extension to complete construction for the reason below:

- A change request has been submitted to the Yakima County Conservancy Board and time is needed for processing.

The new deadline to submit your *Construction Notice* is **December 1, 2012**.

For your information, under RCW 90.4.050 (enclosed) the permit exemption rule may entitle you to use the existing well and water use without the need to keep this Permit active, which would eliminate the need for you to follow the strict development schedule set forth in the Permit, thereby also eliminating the need for future extension requests and fees. Furthermore, it is unlikely that Ecology will approve future extension requests without the showing of due diligence toward finalizing the project.

New Provisions: According to the Department of Ecology's Provision *POL-1050*, "As a condition of an extension, Ecology may require additional provisions and conditions . . ." As a condition of this extension approval, Ecology is requiring the following new provisions:

- **Meter Installation:** An approved measuring device shall be installed and maintained for the source authorized by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use," WAC 173-173.
<http://www.ecy.wa.gov/programs/wr/measuring/measuringhome.html>.
- **Report Annual Totals:** Water use data shall be recorded annually and maintained by the property owner for a minimum of five years. The maximum rate of diversion and the annual total volume shall be submitted to the Department of Ecology by January 31st of each calendar year.
- **Electronic Reporting:** Recorded water use data shall be submitted via the Internet. To set up an Internet reporting account, contact the Central Regional Office Regional Office. If you do not have Internet access, you can still submit hard copies by contacting the Central Regional Office Regional Office for forms to submit your water use data.
