Re: Ground Water Change Authorization No. CG4-CV1-4P249

Dear Mr. Dimmitt:

In response to your request, you are hereby granted an extension to begin construction for the reason(s) below:

- The project can still reasonably begin before the subdivision application expires in 2016.
- Some work has actually begun.

The new deadline to submit your *Construction Notice* is **June 1, 2016**.

Please be reminded that the Defined Future Development Plan (DFD) no longer applies IF the water right holder ceases to develop the right under the fixed and determined plan or if the plan changes substantially. And, according to the provisions of the Record of Decision, in addition to the requirement for submitting final engineering designs and specifications for the proposed mitigation and domestic water supply system prior to completion of construction, "At the time the applicant or water right holder submits the completion of construction notice, the applicant shall contact Ecology to schedule an inspection of the completed mitigation and domestic water systems."
