NARRATIVE DESCRIPTION OF PROJECT: The Yakima Adjudication Court confirmed Ray L. & Jean West, Joseph & Lorra Wiebler, and Billy & Sheryl Smith an 1867 priority date water right under court claim number 02398 in Subbasin 23 (Ahtanum Creek). In 2004 Gary Hansen applied to add 2 points of diversion one on Bachelor Creek, located within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and one on Ahtanum Creek located within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, both in Section 4, T. 12 N., R. 18 E.W.M.
--

Both the senior and junior water rights are confirmed to divert water from the same points on Ahtanum Creek located at a point near the southwest corner of Lot 6; point near the center of the NW¼SW¼; within the NE¼SE¼; within the NW¼SW¼; point on the south boundary of Lot 6; point on the line between Lots 7 and 8; 1300 feet west and 825 feet north of the southeast corner of Section 4, being within Government Lots 7 and 8; 100 feet west and 70 feet south from the east quarter corner of Section 4, being within the NE¼SE¼ of Section 4, all in Section 4, T. 12 N., R. 18 E.W.M. However, the junior right can only be exercised when the flow in Ahtanum Creek exceeds 62.59 cfs and no uses are being made of the excess by water right holders on the reservation.

The Yakima Adjudication Court, in its Report of the Court for Subbasin No. 23 (Ahtanum Creek), confirmed the same points of diversion that were certified in the previous 1925 Ahtanum Creek Adjudication. However, many water right holders are now using different points of diversion (e.g., pump sites) that were never authorized through the water right change process outlined in RCW 90.03.380. The purpose of the application described above is to request authorization for an additional point of diversion, one currently used today, under the original right.
