| NARRATIVE DESCRIPTION OF PROJECT:<br><p>The Yakima Adjudication Court confirmed Holtzinger Ranch an 1868 priority date water right under court claim number 2398 in Subbasin 23 (Ahtanum Creek).</p> <p>In 2005 Holtzinger Ranches applied to change to a point of diversion on Hatton Creek located within the NW<sup>1</sup>/<sub>4</sub>SE<sup>1</sup>/<sub>4</sub> of Section 10, T. 12 N., R. 17 E.W.M.</p> <p>Both the senior and junior water rights are authorized to divert water from the same points on Ahtanum Creek located within the NW<sup>1</sup>/<sub>4</sub>SW<sup>1</sup>/<sub>4</sub>, NE<sup>1</sup>/<sub>4</sub>SW<sup>1</sup>/<sub>4</sub> and SW<sup>1</sup>/<sub>4</sub>SE<sup>1</sup>/<sub>4</sub> of Section 10, T. 12 N., R. 17 E.W.M. The junior right can only be exercised when the flow in Ahtanum Creek exceeds 62.59 cfs <u>and</u> no uses are being made of the excess by water right holders on the reservation.</p> <p>The Report of the Court for the Ahtanum Creek Subbasin in the Yakima River Basin Water Rights Adjudication confirmed the same points of diversion that were certified in the previous 1925 Ahtanum Creek Adjudication unless evidence was submitted to the contrary. Subsequently many water right holders are operating points of diversion that were not documented through the change process outlined in RCW 90.03.380. The purpose of the application described above, documents a change from the original point of diversion to what is currently used today.</p> |
