<p>NARRATIVE DESCRIPTION OF PROJECT: The Yakima Adjudication Court confirmed William D. Weed an 1868 priority date water right under court claim number 02398 in Subbasin 23 (Ahtanum Creek).</p> <p>In 2005 William D. and Peggy Weed applied to add a point of diversion for a portion of the water right on Bachelor Creek located within the SE$\frac{1}{4}$NE$\frac{1}{4}$ of Section 9, T. 12 N., R. 17 E.W.M.</p> <p>Both the senior and junior water right are authorized to divert water from the same points on Ahtanum Creek located within the SW$\frac{1}{4}$SE$\frac{1}{4}$ of Section 9, T. 12 N., R. 17 E.W.M. However, the junior right can only be exercised when the flow in Ahtanum Creek exceeds 62.59 cfs and no uses are being made of the excess by water right holders on the reservation.</p> <p>The Yakima Adjudication Court, in its Report of the Court for Subbasin No. 23 (Ahtanum Creek), confirmed the same points of diversion that were certified in the previous 1925 Ahtanum Creek Adjudication. However, many water right holders are now using different points of diversion (e.g. pumpsites) that were never authorized through the water right change process outlined in RCW 90.03.380. The purpose of the application described above is to request authorization for an additional point of diversion, one currently used today, under the original right.</p>
