NARRATIVE DESCRIPTION OF PROJECT: The current authorized place of use for Certificate G4-28570C is the W1/2 of NW1/4 NE1/4 Section 36, T.12N., R.19E . The Board has approved a change in the description of the place of use to include both the W1/2 <u>and</u> E1/2 of NW1/4 NE1/4 Section 36, T.12N., R.19E. The change will reflect a defacto change in the place of use that has taken place over the years subsequent to Mr. Smith's purchase of the property in 2001. Since 2001 much of the apple orchard on the W1/2 has been fallowed and new cherry orchard has been planted on the E1/2. The applicant is still in the process of planting cherries. There will be no increase in the total acreage irrigated, as limited by the tentative determination. The applicant is claiming a DFD (deferred future development) exemption from relinquishment. The irrigation portion of this right is subject to the Family Farm Act Chapter 90.66 RCW.
