Elma A Rice
2416 Carpenter Rd SE
Olympia WA 98503

Dear Elma Rice

We have received and reviewed the water right claim you submitted. Unfortunately, it cannot be registered in its present form. If you will send the answer to the following question, the claim will be registered.

You did not include the complete legal description of land on which this water is being used. Please submit the complete description from your deed, title insurance, or purchase contract. The description from your tax statement is often abbreviated and in code and therefore cannot be used in conjunction with a water right claim.

We are retaining the water right claim to save time and unnecessary mailing expenses. If we receive this information within ten days, the claim will be registered and a copy returned to you.

Should the information not reach this office within that time, your claim will be returned for your further consideration and completion.

Sincerely,

Sue Harlan
