

TO BE COMPLETED BY APPLICANT

EVALUATION FOR AGENCY USE ONLY

c. Water Runoff (including storm water):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

A drainage system is in place and was addressed in the building permit for the Hatchery. The proposed river intake system will not affect water runoff on site.

2) Could waste materials enter ground or surface waters? If so, generally describe.

No.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

None will be required.

4. Plants

- a. Check or circle types of vegetation found on the site:
 - deciduous tree: alder, maple, aspen, other cottonwood
 - evergreen tree: fir, cedar, pine, other
 - shrubs
 - grass
 - pasture
 - crop or grain
 - wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
 - water plants: water lily, eelgrass, milfoil, other
 - other types of vegetation

b. What kind and amount of vegetation will be removed or altered?
Vegetation will be removed at site of intake system and piping.

c. List threatened or endangered species known to be on or near the site.
There are no known threatened or endangered plant species on or near the site.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:
Site will remain in its natural state as much as possible.

5. Animals

- a. Circle any birds and animals which have been observed on or near the site or are known to be on or near the site:
 - birds: hawk, heron, eagle, songbirds, other:
 - mammals: deer, bear, elk, beaver, other:
 - fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened or endangered species known to be on or near the site.
A pair of Bald Eagles occasionally feed at this site. Their nest is located several miles from the site.
