Dear Mr. Burgh:

RE: Surface Water Permit No. S2-29229P

This letter is a follow-up to your phone call on May 16, 2000 regarding an address change and the status of your permit.

On January 10, 1999, we received your Notice of Completion of Construction associated with the above-numbered permit.

You have a construction schedule of July 1, 2001 to put the water to full beneficial use. Enclosed is a Proof of Appropriation form, which is to be filed when the water has been put to full beneficial use. This means that water is being used in agreement with the terms of the permit.

If you cannot put the water to full beneficial use by above date, please contact the Department of Ecology or if you have any further questions or concerns regarding your water right permit.

Sincerely,

Dear Mr. Burgh:

RE: Surface Water Permit No. S2-29229

We have received your Notice of Completion of Construction associated with the above-numbered permit.

Enclosed is a Proof of Appropriation form, which is to be filed when the water has been put to full beneficial use. Full beneficial use means that water is being used in agreement with the terms of the permit. You may complete and file the Proof of Appropriation form for less water than authorized in the permit, if the project is complete and less water is being used than anticipated.

If you cannot put the water to full beneficial use by July 1, 2001, please contact the Department of Ecology. Permit cancellation may result for failing to timely file the Proof of Appropriation form.

The fees for filing and recording your Water Right Certificate are **\$5.00 payable to the Department of Ecology and \$10.00 payable to the Jefferson County Auditor**. Send the Proof of Appropriation form and both checks to the Department of Ecology. Also, the County Auditor is **requiring** that we have the **parcel number** for the point of diversion/withdrawal and the place of use, added to your certificate. ***Do not submit your fees and paperwork until you have put the water to full beneficial use.***

If you have any questions or concerns on the above information or any other aspect of your water right permit, please call the Department of Ecology at (360) 407-0240. Thank you for your attention to this matter.

Sincerely,

Sheri Carroll
