

TELEPHONE MESSAGES

3/20/96 Mr. Bristol responded to our letter about the Cummins protest. The spring they want to use ~~is~~ on their property -- is not the same spring as Cummins' water right.

10/6/99 John and Jacqueline Bristol came to this office. John + his wife have moved and are giving the property to Jacqueline who needs domestic water for a home. The spring is apparently very small, entirely on the Bristol property + empties to Dabob Bay (no fish).

1-25-2000 Jacqueline Bristol - I called to let her know that the metering provision is being changed from "future" to "required".

Re: Water Right Application No. G2-29329

They are concerned about potential impairment of their existing surface-water right if the unnamed spring under your application is the same as the stream specified under their water right.

Ecology will fully consider the protestants' concern before issuing a decision on your application.
