Re: Surface Water Application
Dan E. Pariseau

Your application and check No. 2877 in the amount of \$10.00 are being returned for the following reasons:

1. There is an additional fee of \$22.00 required under this application (\$32.00 total).
2. You will need to supply copies of Okanogan County Assessor's maps of your property. You will need to highlight the boundaries of your property and mark with an X where your source is located. You will need to provide enough detail so that we will be able to locate section corners. At Kevin Brown's request, you will need to designate the 700 acres which are associated with this application. You will also need to designate the 500 acres associated with Surface Water Application No. S4-30205 so we can make comparisons.
3. You indicate on the front of the application that the point of diversion (POD) will be located within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 27, T. 30 N., R. 35 E.W.M. You indicate in the "Remarks" section on Page 2 that you may use a POD within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 27, T. 30 N., R. 35 E.W.M. You are advised that you will either need to:
 - a. include the additional POD in order to have it considered under this application; or
 - b. submit a change application for the additional POD at a later date.Otherwise, the only POD to be considered under this application will be within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 27.
4. You will need to answer, sign and date the enclosed questionnaire since irrigation is listed as a use.
