Re: Ground Water Application

Your application and check No. 521 in the amount of \$10.00 are being returned for the following reasons:

1. Attached is a notice stating that there is a \$100.00 surcharge (\$110.00 total) on all new applications. You will need to submit the additional fees when you resubmit your application.
2. You will need to provide a full legal description of the property where the water will be used.
3. Tim Reiersen of this office requested that you submit service area maps in his letter of August 10, 1993 (copy enclosed). You will need to submit that information.

You will retain your priority date of August 23, 1993, if you return your application, check and all the above-requested information by September 9, 1993.

You may contact this office at (509) 575-2800 if you have any questions.

Dear Mr. Maitelend:

RE: City of Pateros Water Rights

Following your August 9, 1993 phone call, the following is a summary of the town's water right documents:

Ground Water Declaration No. 1026-D (as changed by Cert. of Change No. 916)

Issued for 250 gpm, 180 acre-feet per year for year-round municipal supply from the well known as "Well No. 2." The annual quantity is based on a 1943 population of 800 people with a usage of 200 gallons per day per person. My understanding is that Well No. 2 is the westerly well, drilled in 1965 as a 12 inch, 112 feet deep well.

Ground Water Declaration No. 1027-D (as changed by Cert. of Change No. 918)

Issued for 250 gpm, 156 acre-feet per year for year-round municipal supply from the well known as "Well No. 1." The annual quantity is based on an additional 700 individuals by 1960 (or 1965 in one reference). My understanding is that Well No. 1 is the easterly well, drilled in 1964 as a 12 inch, 107 feet deep well.

Certificate No. 1898-A (as changed by Certificate of Change No. 917)

Issued for 250 gpm, 336 acre-feet per year from Well No. 1 for supplemental municipal supply from Well No. 1.

The annual quantity is based on a 1943 population of 800 people with a usage of 200 gallons per day per person. My understanding is that Well No. 2 is the westerly well, drilled in 1965 as a 12 inch, 112 feet deep well.

Ground Water Declaration No. 1027-D (as changed by Cert. of Change No. 918)

Issued for 250 gpm, 156 acre-feet per year for year-round municipal supply from the well known as "Well No. 1." The annual quantity is based on an additional 700 individuals by 1960 (or 1965 in one reference). My understanding is that Well No. 1 is the easterly well, drilled in 1964 as a 12 inch, 107 feet deep well.

Certificate No. 1898-A (as changed by Certificate of Change No. 917)

Issued for 250 gpm, 336 acre-feet per year from Well No. 1 for supplemental municipal supply from Well No. 1.

Therefore, the water rights issued for a combined total of 500 gpm, 250 gpm maximum from Well No. 1 and 250 gpm maximum from Well No. 2. As a supplemental water right, Certificate No. 1898-A (as changed) does not provide additional quantities. This right could be used if Well No. 2 experienced a decline in production or broke down. Then up to 250 gpm in addition to the 250 gpm under No. 1027-D (as changed) could be withdrawn from Well No. 1 to "supplement" the water right from Well No. 2. (Well No. 1 cannot supplement itself.)

I have enclosed an application form to request a water right permit. If the water rights as described above will not meet your needs, then proceed to fill out and send in the form. I would recommend applying for both wells in the quantities needed, assuming the wells have capacity. Please include service area maps, including the boundary as of 1966 or so, current service area, and proposed annexations with the application. Let me know if you have any questions.

Sincerely,

Tim Reiersen

Discussed Want to increase water rights to accomodate expected expansion + annexation.

His records show 250 gpm per well for their two wells.

DDH records formerly showed 500 gpm per well - check into that to see if there are additional water rights.

DDH says system capacity is 369 services. Currently 270 services.
