Mr. Tim Reiersen  
Water Resources Program  
Department of Ecology  
3601 W. Washington  
Yakima, WA 98903-1164

Dear Mr. Reiersen,

Enclosed please find copies of your correspondence to me. Also, is a map which I hope will help identify the legal descriptions that I previously supplied you.

If you need more information please let me know and I will try to provide it. Thank you, again.

Sincerely,

*Mark Miller*

Brewster WA 98812

**SUBJECT:** Legal Description for Water Right Applications  
File Nos.: S4-32207, S4-32208, G4-32209,  
S4-32210, S4-32211, S4-32212, and S4-32213.

The above applications all share the same legal description for the requested place of use. In attempting to draw out the legal description on a map, we find that more information is needed. The description refers to other plats which we do not have and so their location is unknown to us.

I have enclosed a copy of the legal description with the problem areas underlined. Would you please provide us with legal descriptions which we can map for these areas? An alternative would be for you to take the legal description to a law office or surveyor familiar with such descriptions and have them do the necessary research and mapping. The map and supporting documents could then be forwarded to our office for the files. The map scale should be no smaller than 1:24000, which is the scale of United States Geological Survey (USGS) 7½ minute quadrangle maps.

In the area where you have applied, we are digitizing and storing water right applications in our computer. This is why it is important for the legal description to be clarified early in the application process.

Sincerely,

Tim Reiersen  
Water Resources Program
