Re: City of Bridgeport - Application for a Water Right Permit

Dear Department of Ecology:

Our office represents the City of Bridgeport (the "City") in the above reference matter. Enclosed is an Application for Water Right Permit executed by Mayor Steve Jenkins on behalf of the City for your consideration. Additionally, enclosed is a check in the amount of \$668.00 payable to the Department of Ecology pursuant to the Water Right Application Fee Schedule.

As more fully set out in the Application for Permit, the City seeks a permit to use up to 3,000 acre-feet per year at a rate of 3,000 gallons per minute in order to serve the future municipal needs of the City based on full build out of the current urban growth area.

This Application is submitted in response to the recent legislation regarding the Columbia River and water delivery out of Lake Roosevelt (effective July 1, 2008, Chapter 82, Laws of 2008), and the recommendation of the Central Regional Office of the Department of Ecology.

We look forward to working with you. Please contact either me or Brett Amrine should you need additional information or have any questions regarding the Application.

Very truly yours,

OGDEN MURPHY WALLACE, P.L.L.C.
