Section 5. GENERAL WATER SYSTEM INFORMATION

- A. Name of system, if named: _____
- B. Briefly describe your proposed water system. (See instructions.)

- C. Do you already have any water rights or claims associated with this property or system? YES NO
PROVIDE DOCUMENTATION.

Section 6. DOMESTIC / PUBLIC WATER SUPPLY SYSTEM INFORMATION
(Completed for all domestic/public supply uses.)

- A. Number of "connections" requested: 2 Type of connection _____
(Homes, Apartment, Recreational, etc.)
- B. Are you within the area of an approved water system? YES NO
If yes, explain why you are unable to connect to the system. Note: Regional water systems are identified by your County Health Department.

Complete C. and D. only if the proposed water system will have fifteen or more connections.

- C. Do you have a current water system plan approved by the Washington State Department of Health? YES NO
If yes, when was it approved? _____ Please attach the current approved version of your plan.
- D. Do you have an approved conservation plan? YES NO
If yes, when was it approved? _____ Please attach the current approved version of your plan.

Section 7. IRRIGATION/AGRICULTURAL/FARM INFORMATION
(Complete for all irrigation and agriculture uses.)

- A. Total number of acres to be irrigated: 3.72
- B. List total number of acres for other specified agricultural uses:
Use _____ Acres _____
Use _____ Acres _____
Use _____ Acres _____
- C. Total number of acres to be covered by this application: _____
- D. Family Farm Act (Initiative Measure Number 59, November 3, 1977)
Add up the acreage in which you have a controlling interest, including only:
‡ Acreage irrigated under water rights acquired after December 8, 1977;
‡ Acreage proposed to be irrigated under this application;
‡ Acreage proposed to be irrigated under other pending application(s).

1. Is the combined acreage greater than 2000 acres? YES NO
2. Do you have a controlling interest in a Family Farm Development Permit? YES NO
If yes, enter permit no: _____
- E. Farm uses:
Stockwater - Total # of animals _____ Animal type _____ (If dairy cattle, see below)
Dairy - # Milking _____ # Non-milking _____

Section 8. WATER STORAGE

Will you be using a dam, dike, or other structure to retain or store water?

YES NO

NOTE: If you will be storing 10 acre-feet or more of water and/or if the water depth will be 10 feet or more at the deepest point, and some portion of the storage will be above grade, you must also apply for a reservoir permit. You can get a reservoir permit application from the Department of Ecology.

Section 9. DRIVING DIRECTIONS

Provide detailed driving instructions to the project site.

From Brewster City Center go across the bridge on Highway 173 for 2 1/2 miles to white house/red roof on the left side of the road.

Section 10. REQUIRED MAP

A. Attach a map of the project. (See instructions.)

Section 11. PROPERTY OWNERSHIP

A. Does the applicant own the land on which the water will be used? YES NO
If no, explain the applicant's interest in the place of use and provide the name(s) and address(es) of the owner(s):

B. Does the applicant own the land on which the water source is located? YES NO
If no, submit a copy of agreement:

I certify that the information above is true and accurate to the best of my knowledge. I understand that in order to process my application, I grant staff from the Department of Ecology access to the site for inspection and monitoring purposes. Even though I may have been assisted in the preparation of the above application by the employees of the Department of Ecology, all responsibility for the accuracy of the information rests with me.

was enacted. It also applies to consumers of water from wells whose use began before June 7, 1945, when state laws regulating groundwater use took effect.

Before those dates, water users could establish a right simply by taking the water and posting a notice of what they were doing. Once the codes were enacted, state permits were required for both types of water use.

The new registration period opens Sept. 1 and ends June 30, 1998. Slattery said the agency expects anywhere from 2,000 to 50,000 applications.

If more than 2,000 are received, he said, the agency may have to curtail processing of applications for new or altered water-right permits just to handle the registry of old, unlicensed ones.

Some longtime water users could lose their rights, state officials say.

If a new registrant's claim conflicts with an earlier applicant over, for example, a lack of available water, the earlier applicant could win out, officials said.

That way, those who signed up in the past will be rewarded for following the rules, said Rep. Dave Mastin, R-Walla Walla, a sponsor of the measure that set up the new registration process.

To those people "who blew it once ... we're giving you a reprieve, but you're also being penalized for not having paid attention," Mastin said.

Rachael Paschal, director of the Center for Environmental Law and Policy in Seattle, said it would be better to start water "adjudications," in which water claims are verified on a first-in-time, first-in-right basis and permanently established by court judges.

But Mastin said legislators felt a new registration was less costly than the court procedure and would help at least some long-time water users hold onto their rights.

Now's the time to get that permit

State reopens registry for homeowners, irrigators and others to file water claims

SEATTLE (AP) — Do you have a permit for all that water you use? If not, the state is giving you a chance to get legal.

State law requires everyone to have a permit if they take water out of a stream or have a well that pumps more than 5,000 gallons a day. In the past, the state has ordered some people to halt water withdrawals if they didn't have permits, but thousands still draw water illegally.

Now, the Department of Ecology is reopening a registry for homeowners, irrigators and others to file claims and have their rights recognized.

The state first asked unlicensed water users to register and claim a formal water right in 1969, in an attempt to document the extent of water use and fend off attempts to divert Northwest water to California.

That call brought in 165,000 claims over five years, some of which have yet to be fully processed, department policy analyst Ken Slattery said.

Subsequent calls in 1979 and 1985 netted a "few dozen" claims in each case.

This year, the Legislature passed and Gov. Gary Locke signed a measure calling for additional registrations.

The target is water users who claim a historic right to water dating back before June 7, 1917, when the state's surface-water code
