

STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY

PERMIT

TO APPROPRIATE PUBLIC WATERS OF THE STATE OF WASHINGTON

Surface Water (Issued in accordance with the provisions of Chapter 117, Laws of Washington for 1917, and amendments thereto, and the rules and regulations of the Department of Ecology.)

Ground Water (Issued in accordance with the provisions of Chapter 283, Laws of Washington for 1945, and amendments thereto, and the rules and regulations of the Department of Ecology.)

PRIORITY DATE February 16, 1993	APPLICATION NUMBER G2-28758	PERMIT NUMBER G2-28758	CERTIFICATE NUMBER
------------------------------------	--------------------------------	---------------------------	--------------------

NAME
P&D Development (Paul Blake)

ADDRESS (STREET) 10118 Hwy 12 SW	(CITY) Rochester	(STATE) Washington	(ZIP CODE) 98579-9390
-------------------------------------	---------------------	-----------------------	--------------------------

The applicant is, pursuant to the Report of Examination which has been accepted by the applicant, hereby granted a permit to appropriate the following described public waters of the State of Washington, subject to existing rights and to the limitations and provisions set out herein.

PUBLIC WATERS TO BE APPROPRIATED

SOURCE
Well

TRIBUTARY OF (IF SURFACE WATERS)

MAXIMUM CUBIC FEET PER SECOND	MAXIMUM GALLONS PER MINUTE 32	MAXIMUM ACRE-FEET PER YEAR 4
-------------------------------	----------------------------------	---------------------------------

QUANTITY, TYPE OF USE, PERIOD OF USE 4 Acre-feet per year	Multiple domestic	Year-round, as needed
--	-------------------	-----------------------

LOCATION OF DIVERSION/WITHDRAWAL

APPROXIMATE LOCATION OF DIVERSION-WITHDRAWAL
750 feet South and 200 feet East of the Northwest corner of Section 29.

LOCATED WITHIN (SMALLEST LEGAL SUBDIVISION) NW¼ NW¼	SECTION 29	TOWNSHIP N. 16	RANGE, (E. OR W.) W.M. 4W	W.R.I.A. 23	COUNTY Grays Harbor
--	---------------	-------------------	------------------------------	----------------	------------------------

RECORDED PLATTED PROPERTY

LOT	BLOCK	OF (GIVE NAME OF PLAT OR ADDITION)
-----	-------	------------------------------------

LEGAL DESCRIPTION OF PROPERTY ON WHICH WATER IS TO BE USED

Lots 67, 71, 72, 73, 74 and 76 of large lot subdivision #90-04 as recorded under Auditor's File #930210020 Volume 10 of Plats, page 69, 70 & 71, records of Grays Harbor County, Washington.

DESCRIPTION OF PROPOSED WORKS

220 foot deep well

DEVELOPMENT SCHEDULE

BEGIN PROJECT BY THIS DATE:	COMPLETE PROJECT BY THIS DATE:	WATER PUT TO FULL USE BY THIS DATE:
Started	January 1, 1998	January 1, 1999

PROVISIONS

"The permittee will maintain the ponds by removing debris and performing repairs as needed to ensure proper operation."

The water appropriated under this application will be used for public water supply. The State Board of Health rules require public water supply owners to obtain written approval from the Office of Water Supply, Department of Health, Mail Stop 7822, Building 3, Olympia, Washington 98504-7822, prior to any new construction or alterations of a public water supply system.

The applicant is advised that the quantity of water allocated by this permit may be reduced at the time of final certificate issuance to reflect system capacity, and actual usage.

Installation and maintenance of an access port as described in WAC 173-160-355 is required. An air line and gauge may be installed in addition to the access port.

An approved metering device shall be installed and maintained in accordance with RCW 90.03.360, WAC 508-64-020 through -040. Meter readings shall be recorded at least monthly.

The Water Resources Act of 1971 specifies certain criteria regarding utilization and management of the waters of the state in the best public interest. Use of water may be subject to regulation at certain times, based on the necessity to maintain water quantities sufficient for preservation of the natural environment.

In order to maintain a sustainable supply of water, pumping must be managed so that static water levels do not progressively decline from year to year. Water levels shall be measured and recorded monthly, using a consistent methodology. The length of the pumping period or recovery period prior to each measurement shall be constant, and shall be included in the record. Data shall be submitted annually, in the month of February, to the Department of Ecology.

Under RCW 90.44.250 and 90.54.030, the Department of Ecology is directed to become informed about all aspects of the water resources of the State. The Department is authorized to make such investigations as may be necessary to determine the location, extent, depth, volume, and flow of all ground waters within the State. Accordingly, the applicant shall monitor and provide an annual summary of the previous year's monthly water level data and monthly totals of water pumped for this well. The summary shall be submitted in tabular format to Ecology's Southwest Regional Office annually, during the month of February, or more frequently if requested by the Department.

The subject well has been tagged with a well identification number. It is printed on that metal tag which is attached to the well. This unique well number should remain attached to the well, please reference this code when submitting data.

Issuance of this water right is subject to the implementation of the minimum requirements established in the Conservation Planning Requirements, Guideline and Requirements for Public Water Systems Regarding Water Use Reporting, Demand Forecasting Methodology, and Conservation Programs, July 1994, and as revised.

Under RCW 90.03.005 and 90.54.020(6), conservation and improved water use efficiency must be emphasized in the management of the states water resources, and must be considered as a potential new source of water. Accordingly, as part of the terms of this water right, the applicant shall prepare and implement a water conservation plan approved by Department of Health. The standards for such a plan may be obtained from either the Department of Health or the Department of Ecology.

The subject well has been tagged with a well identification number. It is printed on that metal tag which is attached to the well. This unique well number should remain attached to the well, please reference this code when submitting data.

"The permittee is advised that notice of Proof of Appropriation of water (under which the final certificate of water right is issued) should not be filed until the permanent distribution system has been constructed and that quantity of water allocated by the permit has been put to full beneficial use."

A certificate of water right will not be issued until a final investigation is made.

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at Olympia, Washington,

this 9th day of May, 19 97.

Department of Ecology
