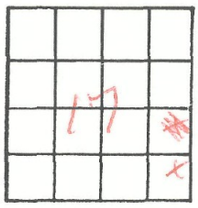
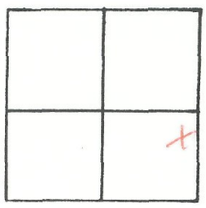
(SECTION)



(¼, ¼)



* ½ or ¼ degrees

PROJECT STATUS:

[ ] Proposed

[ ] Existing and In Use

[ ] Partially Constructed

[ ] Expansion of Existing System

DESCRIPTION OF WATER DELIVERY SYSTEM: 5000 gal concrete Reservoir 2HP submersible pump 3" PVC

Pump: (Type) _____ (H.P.) _____ (Capacity) _____

System Pressure: _____

PROPOSED USE(S):

[ ] Industrial

[ ] Municipal

[ ] Domestic Group

[ ] Irrigation

[ ] Stockwater

[ ] Fish Propagation

[ ] Beautification

[ ] Recreation

[ ] Wildlife Refuge

[ ] Power Generation

[ ] Other _____

USE DETAILS:

Crop Type _____ Use Season _____

Acreage: (Present) _____ (Planned) _____ (Feasable) _____

Number of Services _____ (Type) _____

Estimated Population of _____ for the year _____

COMMENTS: Dan requests this app be held until minimum flow determined (03-92)

2-5-93 MP, VW, GH dirt access

undeveloped lots - areas cleared

2 springs emerging from roadcut access (~10-15 gpm at roadcut)

goes to ditch - * 50' to 75' above access Rd to Rocky area, 800' above Rocky area will locate storage tank Reservoir

call to confirm location + get development schedule

* per telecom w/ permits Alwine 2/17/93

* over 100 gpm measured in Late Fall

* Start 8-1-93 Complete 8-1-94 PA: 8-1-95

Water Right Application # S228300
Applied for by ACWINE, DENNIS
WRIA # 18
Water UNNAMED SPRING
Amount 0.06 cfs

The waters to be affected by this water right application:

___ support anadromous fish
___ support resident fish
___ support no fish
___ based on site-specific knowledge
___ based on experience with this type of water

The Department of Wildlife has reviewed the above referencec water right application and submits the following recommendations:

___ This is a second response after field investigation following a hold request.

___ WDOE has adopted minimum flows and stream closures for this WRIA. Water rights should be subject to adopted minimum flows and closures as stated in WAC 173-5___.
___ Deny:
___ Deny: According to WDW policy (POL-3200 5. Diversion From Very Small Streams to be Discouraged), "Any diversion from very small streams (less than 5 cubic feet per second mean annual flow or less than 5 feet wide between toes of banks) is detrimental to fish habitat at any flows except floods. The Department will discourage any diversion from very small streams which support fish."
___ Deny: This water right, if granted, would adversely impact wetlands in violation of Executive Order 90-04.
___ Minimum flow: all diversions shall cease when the flow of_____ _____ as measured at _____ is less than _____ cfs during _____and _____cfs during _____. This recommendation

is based on _____.

___ This water right, if issued, should be subject to existing low flow on _____. If that existing low flow is not clearly defined as to point of measurement and specific number of cfs, then please notify us so that we may recommend specifics.

___ Single domestic water rights normally do not exceed 0.02 cfs. If this water right is issued, we request that it be limited to no more than 0.02 cfs.

_X_ Please HOLD pending investigation to determine minimum flow needed. We will be able to provide site-specific minimum flow recommendations by 3/1/92 after field investigations are completed.

___ Please HOLD pending completion of IFIM study which should be conducted by applicant following Instream Flow Study Guidelines available from Department of Wildlife.

___ Screening criteria: maximum approach velocity 0.40 ft/sec, 1/8 inch mesh.

___ Hydraulic Project Approval required.

___ Spring is important wildlife habitat. We request that WDOE establish conditions to minimize impact to wildlife habitat. Please call us if we can assist.

___ Other:

___ No comments.

Thank you for the opportunity to review and comment.

Sincerely,

Constance Ute

Re: Surface Water Application No. S 2-28300

Dear Mr. Alwine:

We acknowledge receipt of your affidavit of publication of notice in connection with the above-numbered application.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections. In some cases it is also necessary for us to await approval of the Departments of Fisheries and Wildlife before issuing permits.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

Sheri Fox

In the Superior Court of the State of Washington for Clallam County

Affidavit of Publication

STATE OF WASHINGTON }
COUNTY OF CLALLAM } ss.

The undersigned being first duly sworn on oath, deposes and says:

That she is authorized to and does make this affidavit for and on behalf of Peninsula Daily News, a corporation, and that the following statements of fact are within her personal and actual knowledge.

That said corporation is the owner and publisher of the Peninsula Daily News published in Clallam County, and has been approved as a legal newspaper by order of the Superior Court of said Clallam County of the State of Washington.

That the annexed is a true copy of a

advertisement for water rights. D. Alwine of P.A. Inv # 50770

as it was published in regular issues (and not in supplement form) of said newspaper on

Nov 21,28, 1991

and that said newspaper was regularly distributed to its subscribers during all of said period. That the full amount of the fee charged for the foregoing publication is $ 51.48 at the rate of

$ 5.70 per column inch

Subscribed and sworn to before me this 3 day of December 1991

Notary Public in and for the State of Washington residing at Port Angeles.

STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY
NOTICE OF APPLICATION
TO APPROPRIATE
PUBLIC WATERS

TAKE NOTICE: That Dennis Case Alwine of Port Angeles, Washington on October 14, 1991, under Application No. S-228300 filed for permit to appropriate public waters, subject to existing rights, from an unnamed artesian spring in the amount of .06 cubic feet per second as needed year round each year, for group domestic supply and irrigation during the irrigation season. The source of the proposed appropriation is located within SE¼ SE¼ of Section 17, Township 30 N., Range 8W W.M., in Clallam County.

Protests or objections to approval of this application must include a detailed statement of the basis for objections; protests must be accompanied by a two dollar ($2.00) recording fee and filed with the Department of Ecology, at the address shown below, within thirty (30) days from November 28, 1991.

Re: Surface Water Application No. S 2-28300

Dear Mr. Alwine:

Your application for the appropriation of water has been assigned the above-referenced number. Please refer to this number in future correspondence.

Enclosed is a notice of your application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in Clallam County. A list of these newspapers in your county is enclosed. The applicant is responsible for the payment of the publication. Please read the notice carefully to make sure it is correct. Should you find an error, please return the notice to our office for correction.

You should mail or deliver the enclosed notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication with the news clipping from the newspaper, please forward the original to this office promptly.

Since your application is for service of more than one residence, it is considered a public water supply. Public water supply systems are required to be approved by either the local health department or the Department of Social and Health Services (DSHS), depending upon system size. If you have not already done so, I suggest that you contact your local health department or DSHS, Water Supply and Waste Section, Mail Stop LD-11, Olympia, Washington 98504, for further information.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 12 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

Sheri Fox
Water Resources
