Montesano, WA. 98563-3614

Dear Mr. Varness:

Re: Water Permit No.'s G2-29891, G2-29892, G2-29893, and G2-29894

Thank you for submitting your Beginning of Construction form in connection with the above-referenced permits. Because construction on your water permits has started, the next step in developing your water right is to submit your Completion of Construction notice.

Enclosed is the Completion of Construction form. Please complete and submit this form when all mainlines are installed and service connections are on-line. According to your permit, you are to complete construction and submit your Completion of Construction form on or before **January 1, 2030.**

In order to keep your permit in good standing, you must keep to your development schedule and submit the required progress reports (construction notices and later, proof of appropriation) in a timely manner. If there are extenuating circumstances that delay the completion of your project, you **must** contact us **in writing** to request an extension. Refer to the enclosed pamphlet for more information.

Please inform us how you would like to proceed. If you would like to discuss these options in person or by phone, please contact me at (360) 407-6918 or at abro461@ecy.wa.gov. Thank you for your attention to this matter.

Sincerely,

Abby Brown
Water Resources
