Section 3: (cont) We would like to use this water to irrigate some pasture, a small orchard and to irrigate and develope 2½acers of blueberries in an area far from our well. Also to water stock.- Our group well has a very limited supply and ran dry a few times this summer. We also filter the water in our group well and this is very expensive. We would like to use unfiltered water for irrigation and stock.

It is our goal and practice to use low pressure drip systems to conserve water as much as possible.

We would also like to use this water for emergency domestic use.

We are returning your application for the following reason(s):
